A photograph of a fountain at night. The fountain has a central jet of water shooting upwards, surrounded by several lower jets. The water is illuminated with blue and white lights. In the background, two people are visible, their faces partially lit by the fountain's lights. The overall scene is dark, with the fountain providing the main source of light.

# Different

1. The King is Dead. 2. Who could better demonstrate the popularity of Bubble-Yum than Jackie Feehan, junior? 3. Many people missed Farrah Fawcett-Majors when she left "Charlie's Angels." 4. Fleetwood Mac's album "Rumours" held first place on the charts for many weeks. 5. Vans became more popular than ever this year. 6. "Star Wars" became the biggest money-making movie of all times, with some students seeing it as many as twelve times.

1. Fall sweaters are long, flowing and beautiful on Penny Wells. 2. Jim Robbins and RuthAnn Keener say three-piece suits were their favorites for fall. 3. Blue-jean Boogie! 4. Ozzie Branch steps out with a shimmering top hat and cane, while Kathy Bunch, Mary Frank, and Amy Smith look great in their fall attire.

Whether they wore boots, suits, or long sweater, UT students adorned the halls with fashion!

Styles change every year and this year was no different. Girls stopped hiding underneath slacks! Instead they slipped into stylish dresses and dressy three-piece suits.

Guys, too, switched to three-piece suits, or jumpsuits. Fashion seemed important to the guys this year. A male student was even seen wearing a carnation in his lapel one day in the cafeteria.

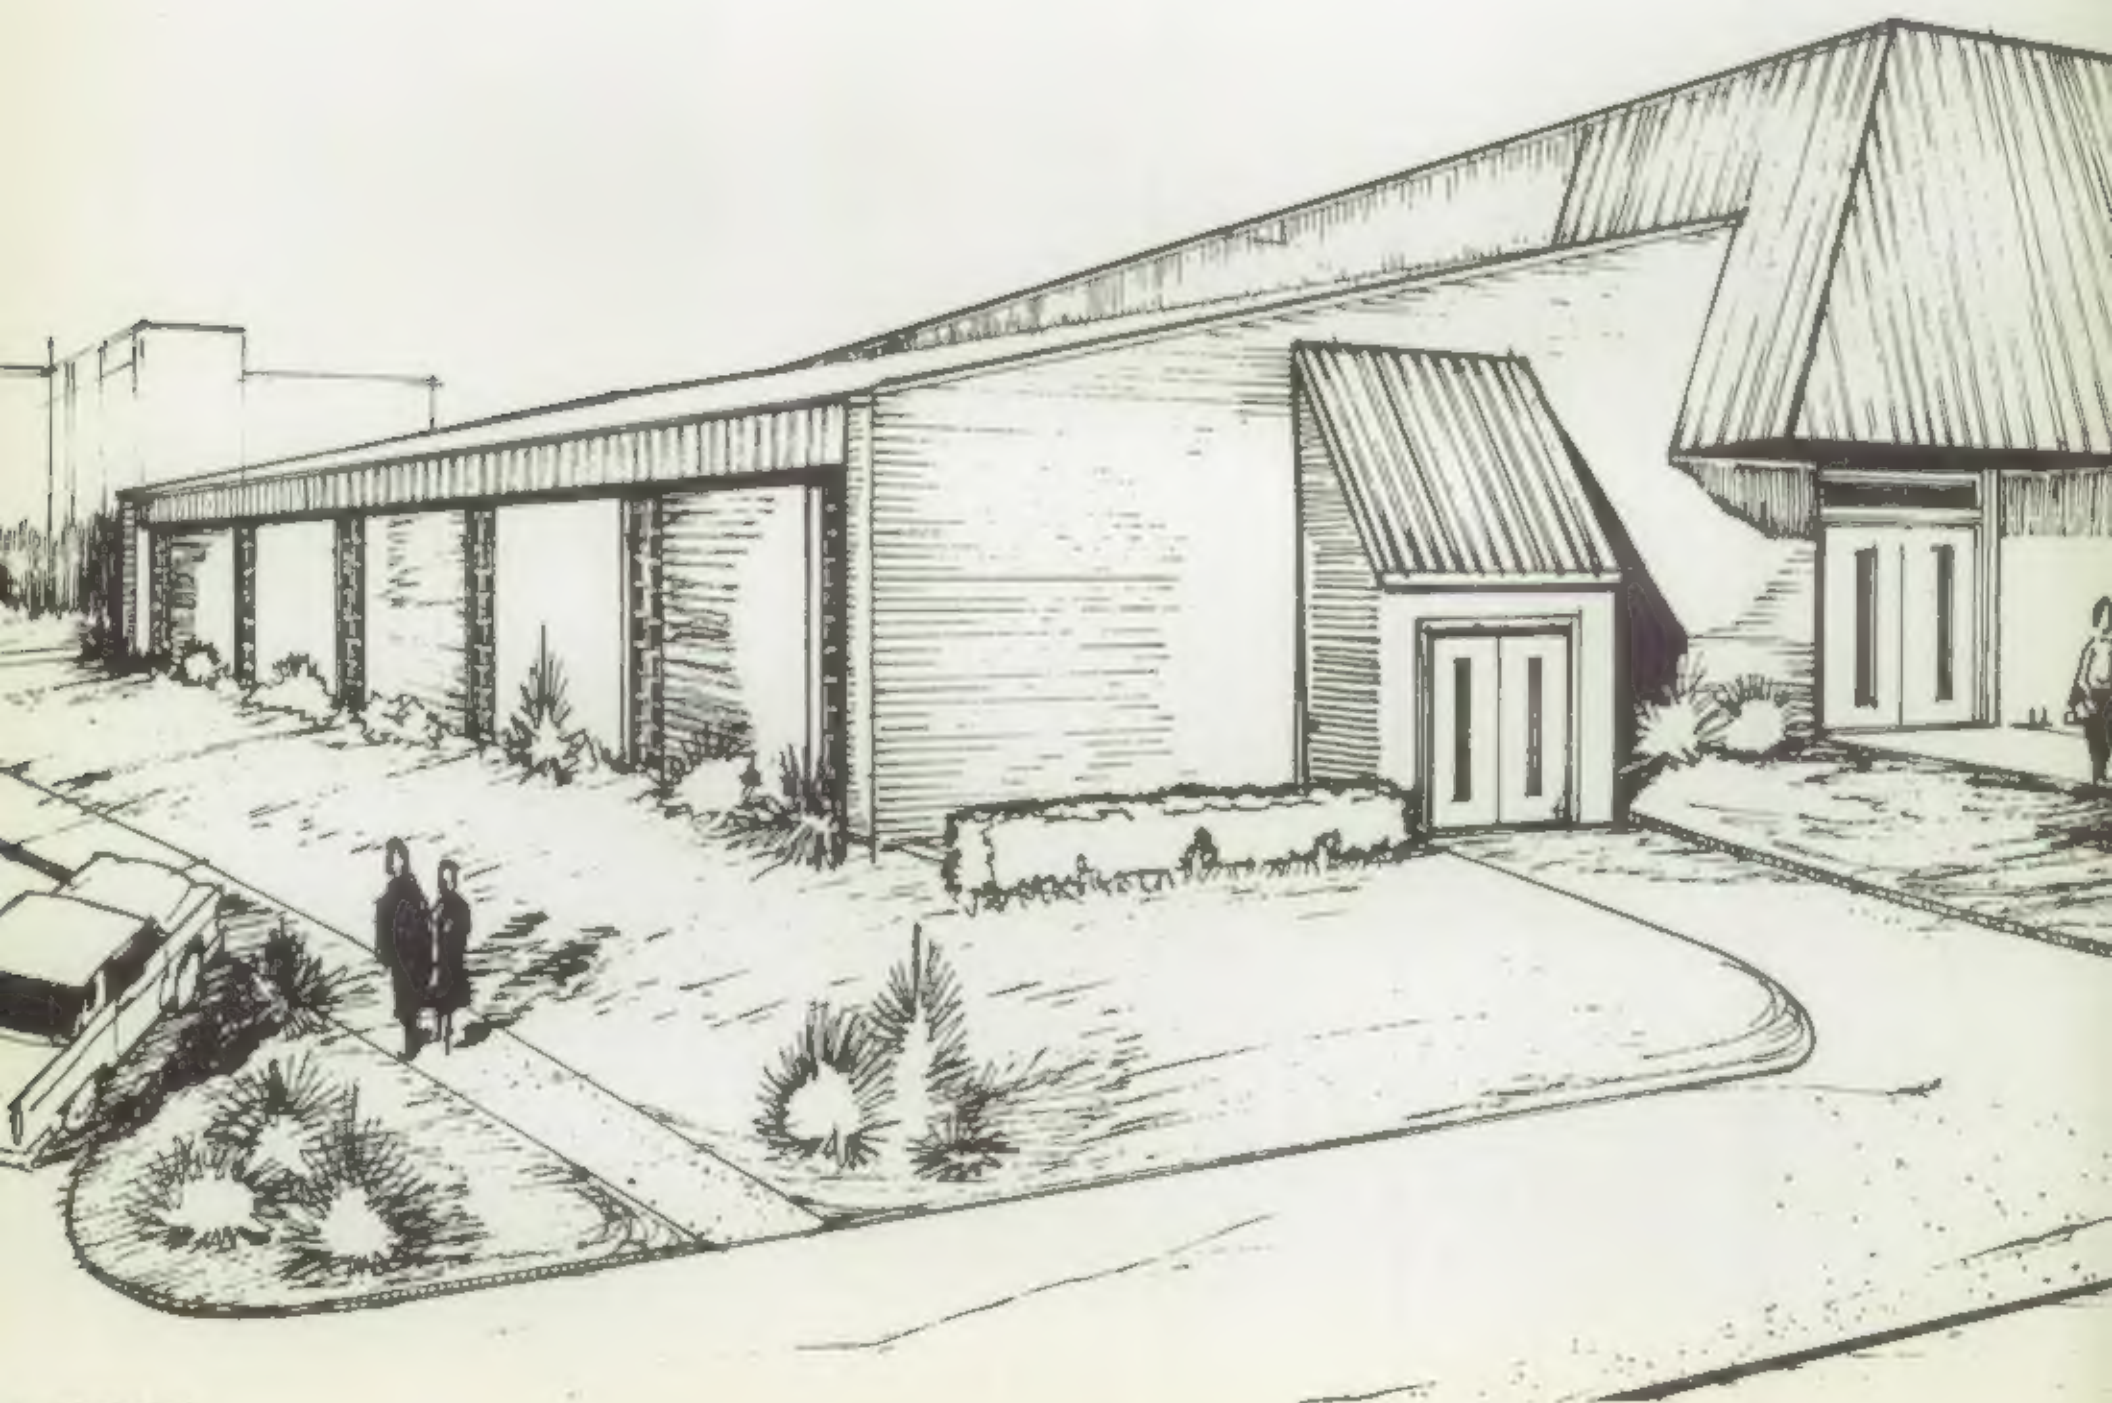

The only thing we can really predict about fashion is that it is always unpredictable.

1. Guess who's behind the specs? What does the "K" stand for? The answer is all in the eyes. 2. What's fall fashion? It's a striped sweater and a pair of chocolate cords for Lloyd Fletcher. It's a jumpsuit guacho for Mary Beintema, a peasant top and skirt for Jennifer Fowler, and a jumpsuit for Earl Teague. 3. Whether it's fur, leather, or wool-Sue Sandoval, Kim Klinefelter, and Leonard Schwiegen have it all.

 HOT LUNCH STRICTER DISCIPLINE

1. North Campus and South Campus are joined together in the homecoming assembly for a change. 2. The enthusiasm at pep assemblies tops that of recent years. 3. Students tagged George Coen, parking lot supervisor, with the name "Buford." 4. Hot lunches invite students to stay in school at noon. 5. Victory for Panthers in Game #1! 6. Theresa Harter enjoys pizza and milkshake for her lunch break

Everyone knew the year would be different, and it was. With a new superintendent came new rules, regulations, and lines to toe. Classes were fuller and students learned to accept responsibility for their actions.

The year was different in so many ways . . . a hot lunch program, more and better assemblies, teachers in the hall between classes to smile and greet you, and in general an all around good feeling.

1. North Campus students help to fill the gymnasium with cheers during the combined homecoming assembly. 2. Dr. Thomas Parker gradually becomes acquainted with all UT facilities, including the greenhouse where geraniums are in bloom. 3. Dr. Parker and Reinhard Thiel, foreign exchange student, enjoy the beautiful weather at the homecoming picnic.

## SONGS FOR MARY AND KAI

The joy and excitement that was felt by King and Queen Kai Togami and Mary Adlfinger could hardly be expressed in words. Mary said, "To be queen for a day was one of the most fantastic days of my life because it was like a whirlwind everything surrounded me." Kai exclaimed, "To be King for a day was fun but tiring, and it was one of the high points of my senior year." Together Kai and Mary agreed, "We had the best court that we could have asked for."

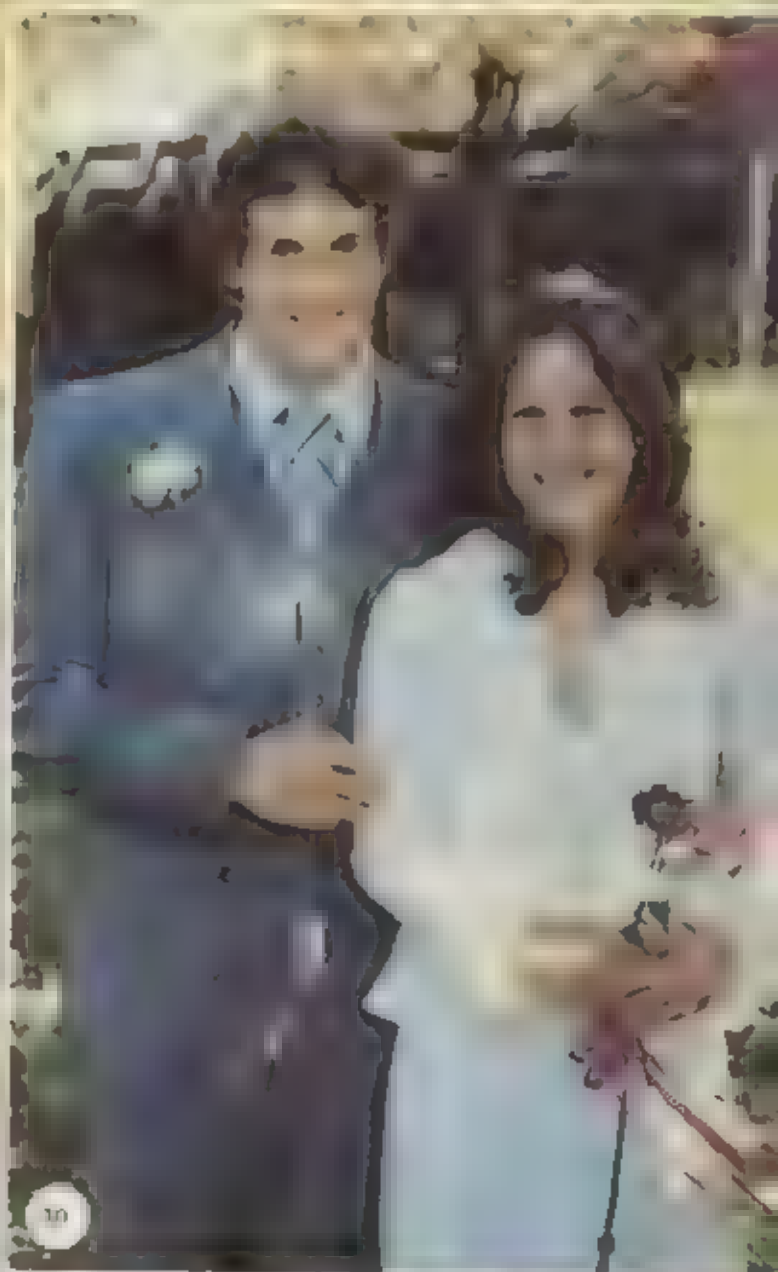

Prince Brent Mosley and Princess Tammy Shamsie felt it was an honor to be chosen and they will always have this memory to look back on. Tammy said, "It made me realize how important my friends are and how much UT means to me." Brent added, "I must have had friends that I never thought I had before."

Royalty, a memory, an honor, a dream come true!

## PUFF'S CAVE LURES DANCERS

A stroll down 'Cherry Lane,' breaking into an array of silver stars, musical notes, and flowing gowns, was only the beginning of a successful 1977 homecoming dance.

The band, "Something for the People," supplied fast-moving jazz tunes, which emphasized the theme, "Songs in the Key of Life."

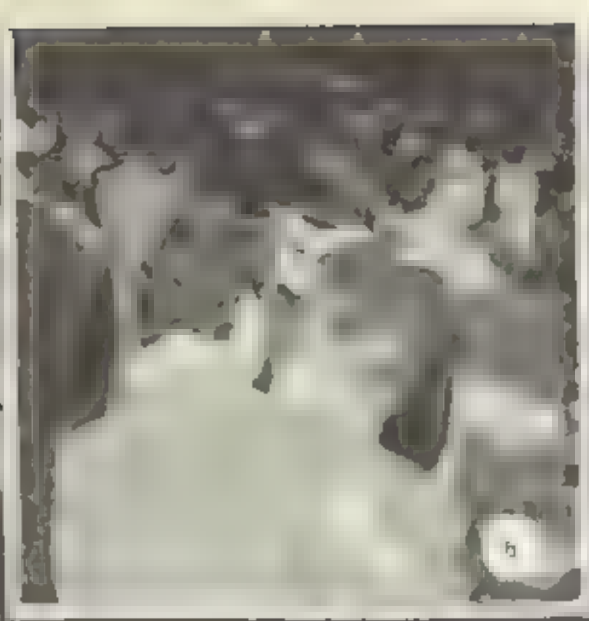

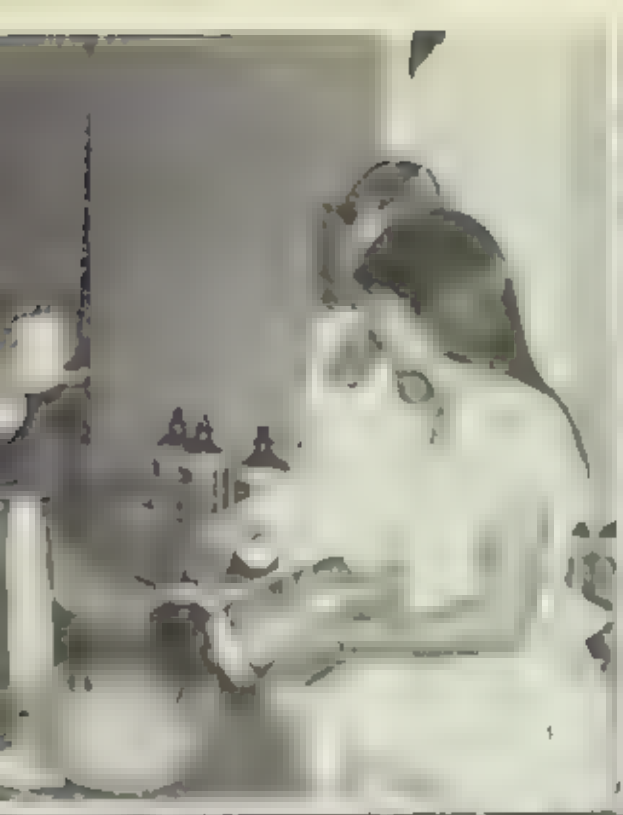

Refreshments, mints and punch were served in 'Puff's Cave,' also study hall B.

The night was full of happy times and special moments which are recorded forever in minds, diaries, and scrapbooks.

## FALL IN THE

It's time

One fall, when cooler weather comes, the scent of burning leaves, pumpkins are here on porch steps, and the first frost touches the ground. It's magic! A certain kind of magic.

**FALL MAGIC**  
The spirit is everywhere and in everyone. The homecoming festivities are filled with excitement and emotion.

Waiting for royalty, laughing at the homecoming skit, crying when the queen and king are announced, skipping class to put finishing touches on the class float, lining up along the street at the parade, and watching the band at the homecoming game. They are all part of that magic.

# CUPID AND COMPUTERS MATCH MATES FOR DANCES

## Valentine Dance

Do you have the "Boogie Fever", Valentine? The Valentine Dance was held February 14 in the South Campus cafeteria. The dance was a disco, with KLIK disc jockey Rick McGuire as host.

The dance was sponsored by Student Council, who also provided pretzels and potatoe chips for those with the munchies.

Red and white streamers and a mirage of red hearts as decorations helped set the mood for love.

ANN BARLOW

## Computer Dance

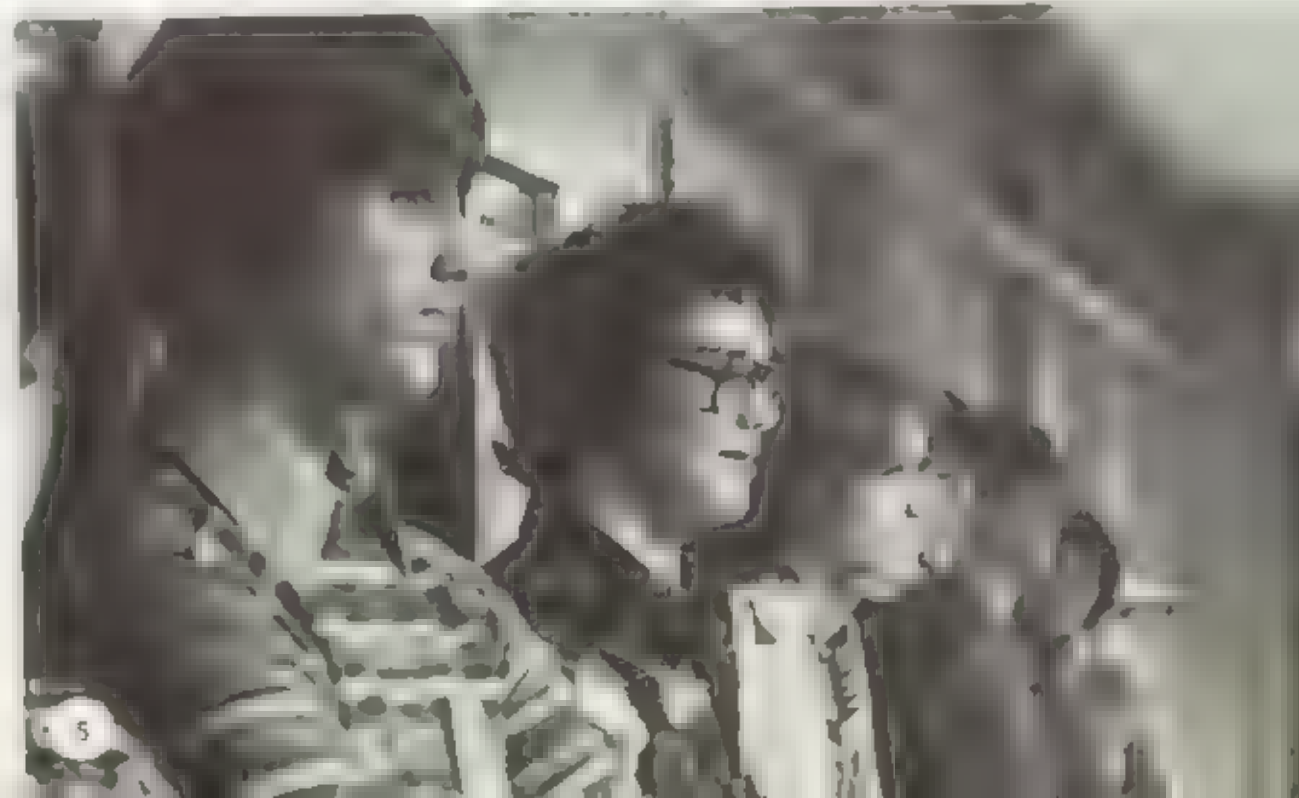

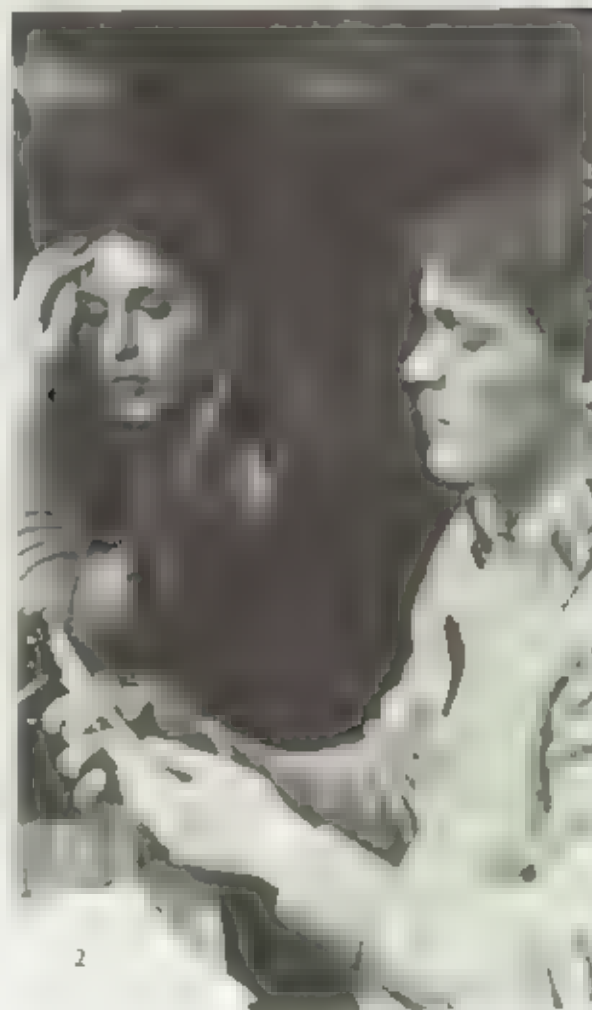

Your date will be computed in approximately five seconds . . . and the computer reads. John McGeehee and Andrea Hoff a perfect match! John and Andrea were two of the many couples that attended the computer dance on January 19.

The dance was a success! As Barb Muler said "The dance was a good way to meet people. It was very unique because we were one of the first schools to do something like this." Nancy VandeWiele said, "It's too bad it limits the number of people you could be matched up with."

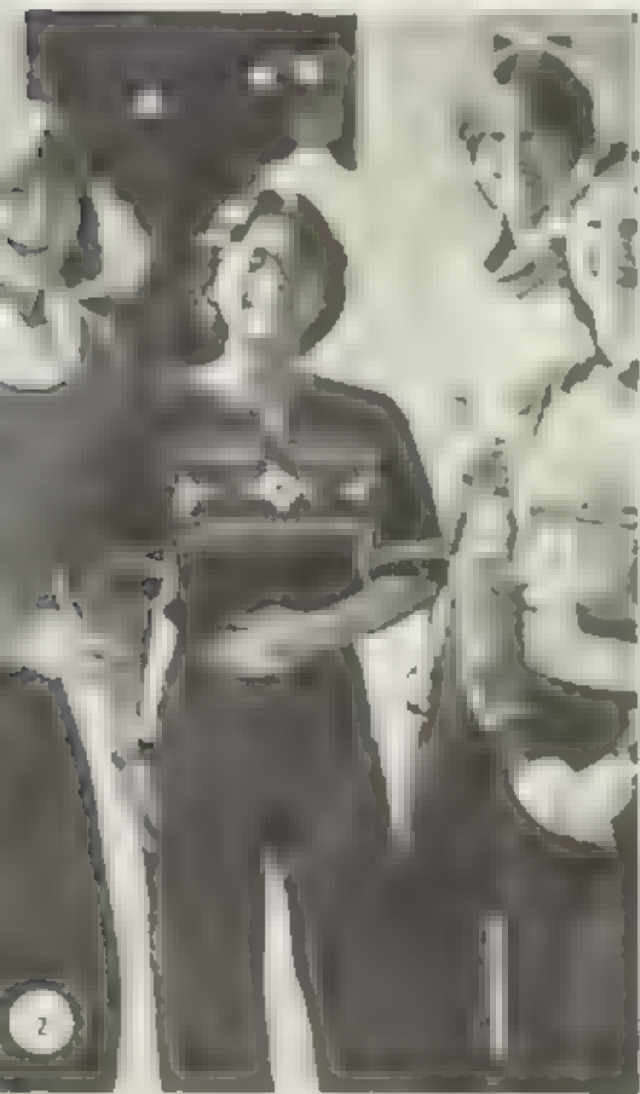

The group "Onex" were the entertainers for the evening, and whether your match was perfect or not, it really didn't matter.

KERRY DUFF

1. Mr. Jose Diaz is always a supporter of student council activities. 2. Mike McClure sees another dance through as president of student council. 3. "Love Is a Many Splendored Thing" was the feeling at the Sweetheart Dance, as Scott Culley and Sharon Holmes reign as King and Queen. 4. The Computer Dance matched such great couples as Jeff Benzoni and Terry Dhaemers. 5. Don Allison and friends swirl their perfect matches.

1. All those who attended the Computer Dance had fun comparing numbers to see who their "ideal male" was. 2. Student Council puts on dances everyone enjoys. 3. The Computer Dance may become an annual event due to it's success. 4. The 1978 Prom is based on the theme "Gone with the Wind", with colors of scarlet and ivory. 5. Closeness is a part of every dance. 6. The hallway is always the favorite gathering place before a dance

## WINTER BLAHS

Skating from a steep Colorado slope, iceskating in the moonlight, daredevil tobogganing between the trees, snow sculpting, snowmobiling, or plain ol' snowball fighting—they're all winter sports that UT students and faculty enjoyed during the winter months.

Fun is why these sports remain popular year after year. They are also, for the most part, inexpensive.

The only winter sports that involve money are skiing and snowmobiling, though participants agree it's all worth it.

Chestnut Mountain Ski Resort near Galena, Illinois is the closest and most popular resort for UT students. Skiing popularity is by no means "going down." More and more people are taking up this sport year after year.

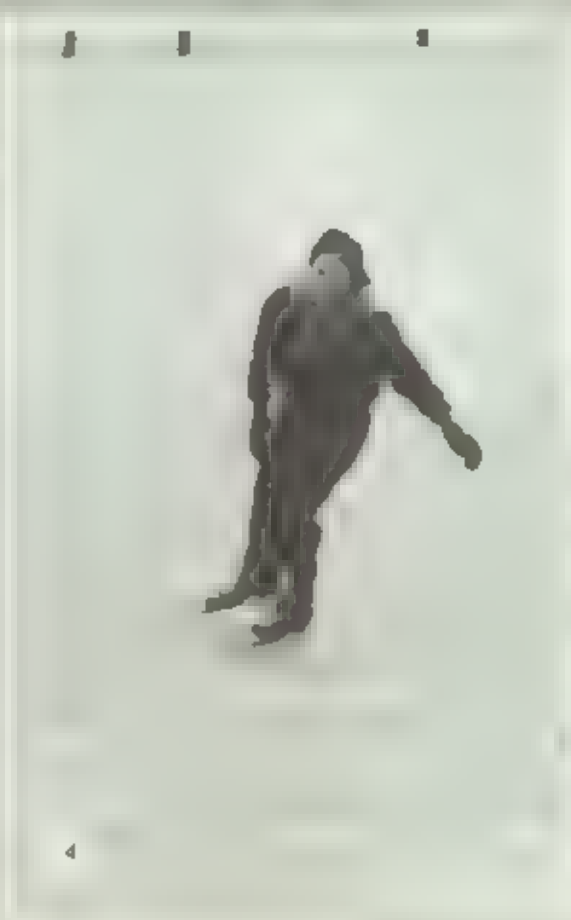

Snowmobiling is on the rise too, but is not so popular among UT students—mainly because a snowmobile is more expensive than the average student can afford.

These average students stick to the old standbys—snowball fights, iceskating and sledding. The daredevils may try something new like bumper skiing.

1 The popular sport of skiing is enjoyed by Tony Castorano, senior. He is a frequent visitor to Vail, where he has taken lessons. 2 Brent Mosely takes advantage of the snow packing conditions and takes part in a snow ball fight during lunch hour. 3 Tobogganing is fun for the Boulder Twins Steve Pratt and Chris Michapou. 4 Ice skating is a favorite past time of speed skater Penny Draper. 5 John McGehee demonstrates his skiing slyie.

Summer is a time when everyone says, "What is here to do?" Well, there are many summer sports such as swimming, basketball, cycling, horse back riding, and water skiing, all which fill the summer with competition and fun.

Baseball is one of the many sports guys and girls can participate in. Junior Mike Beaver said, "I play baseball during the summer because it's fun."

After a hot day in the sun playing baseball, why not cool off and go swimming? Thom Sanchez, Junior replied, "I swim to cool off on hot days and I like to watch the bikinis go by."

## SCHOOL'S OUT? SPORTS FILL SUMMER VOID

1 Serving is always a favorite part of tennis for those who love the game as Kathy Tuttle does. 2 Whether in competition or just for pleasure, Cor Holmes pulls out her best effort. 3 Always wanting to improve is a necessity to any golfer, whether he is competing or just practicing. 4 Few people have Phil Curless' hobby, and few are as brave as Kathy Bunch. 5 During the summer many participate in Kame Oh's favorite sport of water skiing. 6 Once again, Annette Henry proves that water skiing does have its ups and downs.

## CLASS OFFICERS ENJOY WORKING HARD FOR SCHOOL

This year's council is really a working bunch of kids," comments Scott Cuiley, senior class president. The officers are happier with the council members this year than they have been in the past. They all agree that there are more members this year who are willing to work for the school.

The senior class officers, Scott Cuiley, president, Karee Neibergall, vice-president, Joan Nicholson, secretary, and Laurie Lapaczonok, treasurer, have a variety of interests.

Scott likes to keep busy with a job and the responsibilities of senior class president. He is very interested in music and has participated in UT's bands for four years. He has sung in the choir for two years. Scott was selected for the

United States Honor Band and also for the Music Hall of Fame. He intends to go to college after high school to study ministry.

Vice-president Karee Neibergall's main interest is athletics. She often bowls but enjoys all sports. Karee is also a volunteer for the Youth Service Bureau.

Theater is the main interest of Joan Nicholson, secretary. Joan acts as assistant director under Mr. Schmidt. She has performed at the Quad-City Music Guild and has had roles in UT's productions. She is also historian of the Honor Society.

The treasurer, Laurie Lapaczonok, enjoys swimming and horseback riding. She is a member of the G.A.A. board, Y teens, band, and orchestra.

The American experience was a very interesting one for me. I had heard a lot about it, but now I know what it is like. I have seen many things that I had never seen before. I have also met many people who are very friendly and helpful. I have learned a lot about the American way of life. I have also learned a lot about the German way of life. I have found that the two are very different, but they are both very good. I have enjoyed my time in America very much. I have learned a lot and I have had a great time. I will miss it, but I am glad I came.

## SOME WILL GO TO COLLEGE BUT HE'LL GO TO BELGIUM

It is very unusual when a UT student takes up residence in a European country. It is even more unique when that residence is in Belgium.

Senior Richard Berger will move to Belgium after graduation. He gained much attention from the local news media when he was left in America to spend Christmas without his family, who left for Belgium in December.

Richard stayed to finish high school at UT. "I feel a high school education is important," said Richard. In Belgium, mandatory schooling is over

at the age of 14.

Richard's father grew up in Belgium and lived there until he was 21. Then he moved to America.

"My father just decided he wanted to go back home," said Richard.

What the future holds for Richard in Belgium he doesn't know. "I'll have to see how I like Europe." Whether he'll ever return to the United States is undecided.

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

2. Next, it is important to gather relevant information and data. This can be done through research, consultation with experts, or by analyzing existing data sets.

3. Once the information is gathered, the next step is to analyze it. This involves identifying patterns, trends, and relationships that can help in understanding the problem.

4. After analysis, the next step is to develop a solution or plan. This involves identifying the most effective approach to solve the problem, taking into account the available resources and constraints.

5. Finally, the solution is implemented and the results are evaluated. This involves monitoring the progress of the implementation and making adjustments as needed to ensure that the problem is solved effectively.

## IMPROVED STUDENT-TEACHER RELATIONSHIPS GOAL OF PRESIDENT HUGHES

The highest office in the land is that of the Presidency. Bill Hughes, junior class president, isn't Jimmy Carter, but then UT isn't the White House, either.

Kory Togami fills the shoes of Walter Mondale at UT. Instead of Press Secretary Jody Powell, there is Rhonda Cornell; and instead of Burt Lance, thank heavens for Terry Greer.

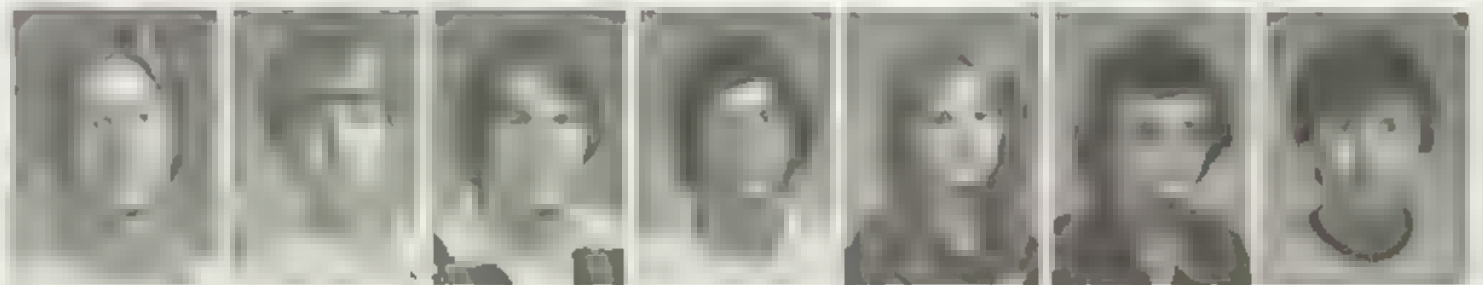

Although President Hughes did not have the Panama Canal Treaty to deal with, he met other challenges. He cited better student-teacher relationships, increased attendance at student council meetings, and a larger realm of activities to include everyone as major goals for the year.

"Lots of fun" could well have been the theme for the building of the junior class home coming float. The theme actually was Elvis Presley's "Return to Sender".

The workers took enjoyable breaks from twisting napkins and bending chicken wire by playing football and soccer.

The students also amused themselves by singing or dancing to the radio, having a few spray paint fights, running downtown for sandwiches or spying on the other floats. They even had a bout with a small mouse, which they chased around the yard with a board and staple gun!

Many students showed up to help with the float building, which took place at Mary and Edina De terich's house.

The finished product, even after all these crazy antics, managed to capture second place in competition.

ANN BARLOW

"Return to Sender" won second place for the juniors.

## FINGER-PAINTS TO OIL PAINTS

Darrell Bush, junior, graduated from finger-painting long ago and now he enjoys oil painting. He likes to paint seascapes, caricatures, and cartoons. This artist has entered his paintings in various contests, such as The Rock Island County Arts and Crafts Show. He won first place with a boat painting and third with a deer painting. Another contest he competed in was at The Garden Center, Riverside Park.

Darrell hopes that the Institute of Art in Chicago will be the next step after high school. He would like to major in commercial art.

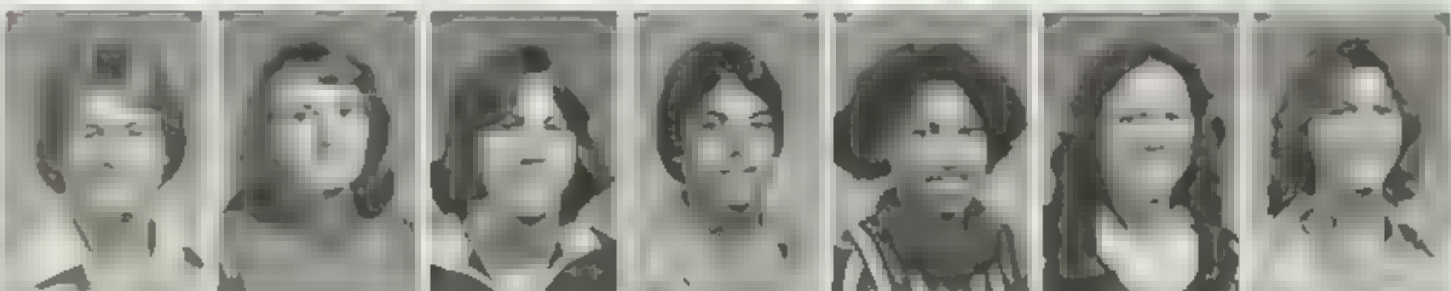

No longer is Darrell smearing his crayons on walls. But look around, you may see him painting murals on vans instead.

Derrick Hicks has boxed some of the best boxers in the United States

## GETTING INTO THE RING IS ONLY HALF THE BATTLE

No feeling can give an athlete greater satisfaction than knowing he is better prepared, both physically and mentally, than his opponent. A boxer, among all other sportsmen, strives to reach this plateau.

Derrick Hicks, junior, is a boxer who knows the joy, sadness, and satisfaction that comes from his sport.

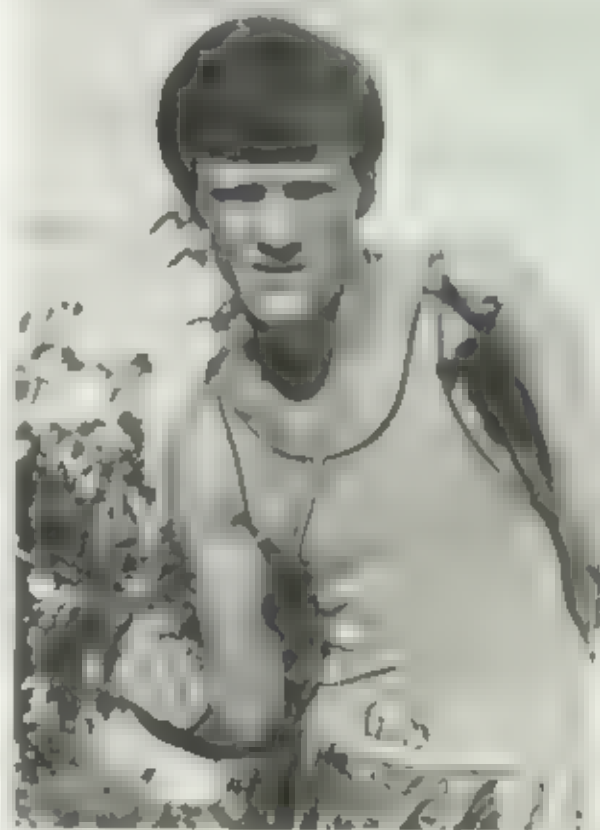

Above all, he knows the importance of practice. Getting into the ring is only half the battle; practice is the other half. Derrick sometimes practices as much as fourteen hours a week. His practice pays off by winning tournaments and

fighting with some of the best boxers in the United States. Derrick has traveled to Ohio to compete at the Ohio State Fair, the largest boxing tournament in the U.S. He placed third in the lightweight division of this tournament.

Derrick finished first in the lightweight division of a sectional tournament in Selvis and placed second twice in the Junior Olympic tournament at Sterling in '76 and Jacksonville in '77.

Losing is a part of boxing and of life. But for a well-trained boxer like Derrick Hicks, the wins are not far apart.

Like mother like daughter. Dad also plays sax and clarinet in his own band.

## IT'S ALL IN THE FAMILY . . . THE SCOTT FAMILY, THAT IS

Chris Scott, first place alto qualifying for Illinois All-State choir competition in Chicago, is following in her mother's footsteps.

Mrs. Gwen Scott, attendance clerk at south campus, has been a professional singer for many years. She sang on WOC TV and Radio from 1956-1960. In World War II she sang in the Clinton Veterans' Hospital.

Mrs. Scott has been a member of the Quad City Music Guild for twenty years and is still very active. She's performed in approximately 18 shows such as "Follies", "Sound of Music", "Fiddler on the Roof", and "Mame." Her most recent role was this past summer when she

played Mama Rose in "Gypsy."

Her daughter has played the flute and saxophone in the school band for six and seven years respectively. She has sung in choir for six years.

Because of Chris's musical talent and her mother's influence, she has developed an interest in the Quad City Music Guild. She has been going to the guild with her mother since the age of three. In 1972 she worked backstage in her first show "Fiddler on the Roof". Chris appeared in "Gypsy" and "Take Me Along".

Both Chris and Mom will appear in "Kiss Me, Kate" at Music Guild this summer.

An all-around athlete, Mark Owen has received 18 medals for wrestling.

## WRESTLER OWES SUCCESS TO SPECIAL DIET AND DAD

Jingle, jingle, jingle . . . a noise that's often heard in the halls of UT. But what is it? Is it a bell? Is it a chime? No . . . it's Super-Owen, wearing his letter sweater laden with medals.

Mark Owen, junior, has been wrestling for five years. In these five years he has received 18 medals. He wrestled in Wisconsin and Iowa during the summer, and he continues to wrestle in school during wrestling season. Mark's opponents have often been two to three years older than he.

In the five years Mark has wrestled, he has pinned over fifty opponents. Mark credits much of his success to his dad's help. "My dad puts me on a diet consisting of meat, lettuce and fruit. For

a sweet, he makes me special cookies containing pre-digested protein and oatmeal," said Mark.

Mark lifts weights to keep in shape for wrestling. His favorite sport is body building, and he hopes to make a career of it. He lifts 18 hours a week during the summer and 6 hours a week during wrestling and football seasons. Mark bench presses 325 pounds and his goal is 400 pounds. He also hopes to be the Illinois State Champion again.

This all-round athlete, who received a varsity football letter his sophomore year, has brought sports recognition to UT and himself.

## IT'S NO TOSS-UP WHEN BRENT COMPETES

Brent Allmendinger is a state champion frisbee thrower

For most people, throwing a frisbee is something they don't do very much of. But for Brent Allmendinger, junior, the frisbee is a part of his life.

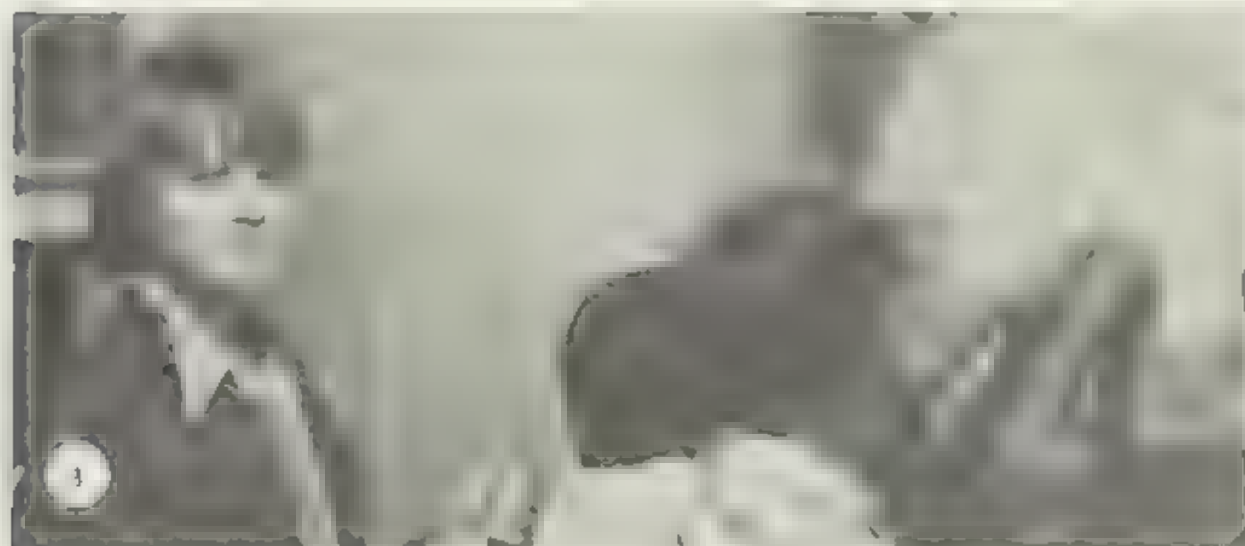

What started as tossing the frisbee around in the yard has developed into the state frisbee championship for Brent.

His first competition came against some area frisbee tossers in the Rock Island Whamo-sponsored tournament on July 29, 1977.

After claiming the overall championship in Rock Island County, Brent went on to North Chicago where he won the state tournament for his age group. To win the state tournament, Brent was tested on his catching ability and throwing accuracy. The distance of his winning frisbee toss was 80 yards.

The summer of '77 state victory made a great impression on Brent's frisbee throwing career, but as for his future tossings — they're kind of "up in the air."

## SOPHOMORE CLASS OFFICERS TELL OF RESPONSIBILITIES

Over a Big Mac and french fries Skynne reporter Kerry Duff interviewed the sophomore class officers to get an insight into how it feels to be a class officer.

"The reason I ran for office," said President Kathy Miletich, "is because it's my way to give my most to the school." Kathy has been on Student Council for three years; she served two years as president and one year as vice-president. She most enjoys taking charge of the meetings and coordinating work on the float.

Tom Bollaert, vice-president, is in charge of the sophomore committees. Kelly Duff is secretary. And Annette Nagel is treasurer. All three say the best thing about being a class officer is that they are close to the activities. They also enjoy the leadership.

Each officer takes pride in the responsibility he or she is given. Whether it is to take charge of the meeting, handle correspondence, or keep books on deposit slips, these officers take pride in the jobs they were elected to do.

KERRY DUFF

## "STILL THE ONE" SOPH THEME

Amid a lot of laughing, talking, and shouting, the sophomore class began their work on the float. After tearing down their framework and reconstructing it, the sophomores were a day behind the rest of the classes, causing them to work most diligently.

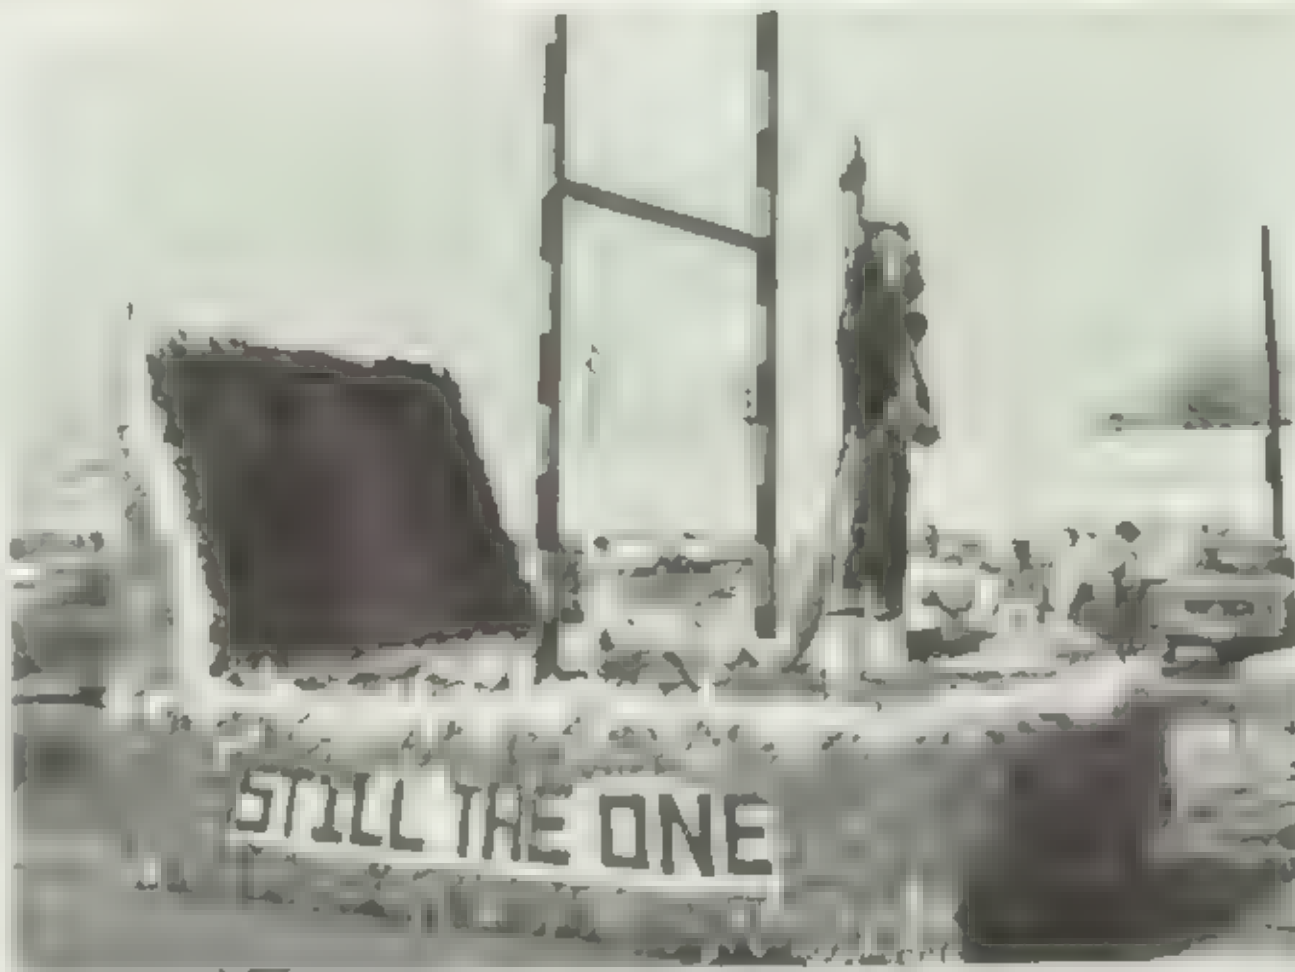

Orleans' hit song, "Still The One" was chosen to be the theme for the sophomore float, and they were off and working after their slight delay.

The usual stuffing of napkins was done, along with the messy paper machéing. Even though it was cold outside, the sophomores stuck with it. Brenda Gray stated "It's absolutely freezing," but kept right on working.

As freshmen, the sophomores placed fourth in float competition and this year they placed third. If the class of 1980 keeps on improving each year, senior year should bring a great victory.

## IT STARTED AS "JUST A LITTLE MUSIC IN THE BASEMENT" AND NOW IT'S THE UT UNLIMITED BAND.

It all started when Bobo Butler, his father, and Andre Cuerington got together and played a little music. There was Darren on the lead guitar, Andre playing electric organ, and Mr. Butler playing bass guitar. Following that session Mr. Butler said, "Fellows, you ought to get a drummer." Darren and Andre did just that . . . and more when they formed UT Unlimited Band.

The band has been together for less than two years. The membership now stands at eight. The members in addition to Darren and Andre, are Tyrone Adams, playing the bass guitar; Poncho Johnson, beating congos; Eddie Tapia, blowing

trumpet; Joe Tapia, playing drums, and Tawana and Theresa Jackson, singing popular tunes.

Between times spent on school work and various sports activities, the band finds time to practice. The rule they've developed is, "School comes first, sports second, and the band third."

Though the practices are few and far between the band manages to play the top hits. This makes the group favorites wherever they play — be it dances, parks, or talent shows.

Not bad for a band that started with "just a little music in the basement."

## GOOD THINGS CAN HAPPEN IF YOU RUN AROUND WITH JEANETTE CLARK

Countless hours of practice paid off for trackster Jeanette Clark when she and three other members of the UT track team took first place at the 1977 Girls' State Track meet.

Voted Most Improved athlete of the '77 season, Jeanette practiced hours upon hours in preparation for the highly competitive meet. "When I realized that we were going to win, I knew that all those hours of practice had finally paid off", said Jeanette.

Jeanette ran in four events: 440-yard relay, 880-yard medley relay, and the mile relay.

The relay team placed third in the 440 and the

medley relays, second in the mile relay, and first in the 880 relay.

It is very rare for a freshman to make varsity squad of any sport. It is rarer for a freshman to be on the number one team in the state.

There is tremendous pressure at a state track meet, but Jeanette endured it with this attitude: "I was nervous and didn't know how to perform, so I just tried to be natural."

That philosophy helped Jeanette lead the relay team to the first team championship ever won by a UT track team.

As a freshman, Jeanette Clark was a member of the state championship track team.

## WD9SQQ, I PRESUME?

When you want a radio you buy one. Right? When Al Comito, sophomore, wants a radio he makes one. Al actually makes his own amateur radios and transceivers.

Al is a member of the Amateur Radio Explorers program in Silvis and has a license to operate his own radios. He also takes the electronics course at UT.

Talking to people across the United States is not unusual for Al. He has talked to people from Maine to California. He carries on an average conversation as WD9SQQ.

Although rates are not cheaper on the week ends and after 9 pm, Al enjoys this method of communication.

HEATHER SLOMAN

While other students have become interested in CB radios, Al Comito spends his time with amateur radios.

## FRESHMAN HARRIER SHAMSIE WINS VARSITY LETTER

Terry Shamsie runs 50 to 60 miles a week during cross-country season.

Terry Shamsie has a genuine love for running. Terry runs junior varsity and varsity cross country against people three to four years older than he.

Terry, freshman, first got interested in distance running two years ago and has progressed greatly since. Because cross country is a grueling sport requiring much stamina, Terry practices almost everyday, running a total of fifty to sixty miles a week during the season.

Terry's biggest problem is his small size. When the course is flat, he is outdistanced by longer legged opponents. However, running on hilly courses, Terry has an advantage over the taller

opponents.

Cross country head coach, Mr. Gary Philips, says about Terry. He's a good little runner. We've only had four or five other freshmen to earn varsity cross country letters. As soon as he grows a bit, he'll be outstanding."

Cross country is not Terry's first love. "I like track a little better," he says. When the spring track season begins, Terry hopes to run the two mile and the mile runs.

Whether harrier or trackstar, Terry Shamsie is sure to be one of UT's premiere runners.

Freshman class officers are (front) Maria Petaros, Cheryl Weidenmann, Lisa Snauwert, and Melanie DeDecker

## HEY, FRESHMEN GUYS! STUDENT COUNCIL NEEDS YOU

Campaign buttons and posters filled the halls of North Campus in the spring of '77 "Go With Melanie", said a colorful stoplight "Write To The Point With Maria", read another poster. The votes were tallied, and Lisa Snauwert emerged as the freshman class president.

Lisa, not one to sit around, is involved in many activities. Gymnastics is an important part of her life, as are cheerleading and playing the guitar.

After a close race, Melanie DeDecker was elected to the position of vice-president. Melanie is a member of the golf team and also belongs to Y teens.

With lots of support, Maria Petaros was voted in as class secretary. An enthusiast, Maria is involved in field hockey and softball. She also

enjoys bike riding.

Cheryl Weidenmann arose as freshman class treasurer. Cheryl is a member of the girls' tennis and track teams.

All four officers have previously been officers for their junior high schools. Each admits that her first impression of North Campus, with its long and winding halls, was a negative one. But now that they've adjusted to it, they share an optimistic outlook.

The freshman student council is almost complete, but there's one thing missing . . . guys! In the whole freshman student council, there is only one male delegate.

## FRESHMEN WIN FIRST PLACE WITH "COLD AS ICE" FLOAT

The freshman float was first place winner in the homecoming parade.

"You're as Cold as Ice" if you don't know by now that the freshman class float won first place in class competition.

Everyone involved with this freshman project was well-organized and worked hard to get the job done.

Although the title of their float was "As Cold as Ice", there was plenty of hot chocolate donated to keep them warm as last.

Few people knew each other at the start of float building, but everyone became friendly working side by side.

President of the float committee, Lisa Snauwart, said, "Everyone got along well, and it wasn't just one group of friends . . . it was a lot of people!"

The freshmen were pretty sure of themselves before they heard the final decision. Their first experience with float-building proved that they were no "Foreigners" (the group who recorded the record) to homecoming activities.

## HER YOUNG STUDENTS DREAM OF NADIA AND THE OLYMPICS

Tracey Wright is a natural born instructor on the balance beam.

Frustrated, yet giggly, nine girls line up awaiting their turns on the balance beam, acrobat mat, and parallel bars.

No, they're not UT gym students. They are little girls between the ages of seven and ten. They are students in an acrobat class taught by Tracey Wright, freshman, at the Moline YWCA.

Tracey has been taking gymnastics since she was five-years-old. She started out with a somer sault, as did her own students. Now she is trying to master a fullback flip with a twist.

Tracey practices four hours a week, thinking of and imitating her idol Nadia Comaneci. Tracey has no dreams of the olympics, but she hopes to compete in gymnastics in the future.

Tracey states: "I'm grateful to my mother for starting me out in gymnastics as young as she did, because I totally enjoy the sport, it keeps me in good condition, and I enjoy teaching children."

## SHE COULDN'T STAND HEAT SO DIANE GOT OUT OF HER MOTHER'S KITCHEN

"If you can't stand the heat get out of the kitchen" This goes for all girls, especially female mechanic Diane Decock, freshman

Diane is a fifteen-year-old girl who would rather check the oil in a car than cookies in an oven. She is content working eight hours a day on one

What other freshman girl has taken apart engines and put them back together? Or has rebuilt a carburetor? Or has changed the oil in a car and given grease jobs?

And to think it all started by handing her brother tools while he worked on his car. Her

mother, of course, wanted Diane to help in the kitchen — not in the garage

Auto mechanics class will be at the top of Diane's schedule in her junior year. After high school, her goals are aimed at Wyoming Institute of Technology for further study in auto mechanics

Encouragement comes from Diane to all girls interested in auto mechanics. She gets teased a lot for being a female mechanic, but likes the recognition

## JUNIOR OLYMPIC SWIMMER AT UT

The swimmers line up. Karrie Ghuy, freshman, is in lane number two. She's tense and a little nervous, but ready. The whistle blows and Karrie, graceful and sleek, skims over the water.

Anyone observing the meet can tell Karrie is no beginner. She is a member of the Blue Marlin swim team and has earned 209 awards.

One of her biggest wins was at the YMCA district meet where she was a member of the winning 100-yard medley team. Another was at the Junior Olympic swimming tournament in Oak Park, Illinois where Karrie finished sixth in the 100-meter backstroke.

Karrie practices about two hours a day. She is only a member of the team, but has earned the rewards of individual effort.

Karen Wiedenmann plays in the highest position on the tennis ladder that any freshman ever has

## KAREN TOPS IN TENNIS

**F**irst place is the best, but right now number four means more to Karen Wiedenmann

Karen is the number four singles player on the girls' tennis team. This is the highest position any freshman has ever played. Karen has also attained the best record of any freshman at UT. She won the chance to compete in the state finals this year.

To benefit Karen in fall tennis, she participated in many summer tournaments, including the Quad-Cities Open, the Quad Cities Closed, and over forty other tournaments. She has won twelve first places, eight second places, and three third places.

Karen does not always work alone. She is teamed up with sophomore Lori Holmes to make up the UT number one doubles team a good portion of the time.

## SOME CHEERLEADERS MORE THAN JUST PRETTY GIRLS

Tracy's ability to perform difficult stunts has taken her to tumbling meets across the state

Cheerleaders are just pretty girls who smile a lot, cheer loud, and can do a few flips. Right? Wrong.

Tracy Hopkins, freshman, is much more than the stereotype implies. She is a pretty girl who smiles a lot and cheers loud, but not only can she do a few flips—she can do five sets of alternates. This means she does a back handspring, back aerial-back handspring, back aerial combination ... five times. She also performs such difficult stunts as five back aerals in a continuous row and a roundoff twist aerial for a finish.

Tracy works out not only at cheerleading practice, but also travels to Kewanee for lessons coached by Patti Lingenfelter. Her coach encourages her to try difficult stunts.

Tracy started taking gymnastics when she was young to build up her strength. "I was a weak child," she said.

It not only built up her strength, but took her to tumbling meets across the state and made her an outstanding U T cheerleader.

# DIFF Faculty

1 Chris Miller and Mr. Diaz are living proof of good teacher student relationships at UT. 2. Miss Oleson spends her conference hour doing some course-related reading. 3. Students of Mr. Picco and Mr. Ritter get some drug advice from a guest speaker. 4. Mr. Ryerson is one of the few people we know who read "American Diplomacy" on his lunch hour. 5. Mrs. DeGrauwe believes in sheer relaxation before her jaunt to North Campus. 6. Mr. Pregracke explains the slide projector to his students.

# PRESENT!

1. This year Coach Talley spoke with confidence about the outlook for basketball season. 2. One student explains to Mr. Lee why he should pass the test. 3. Mr. Erickson is one of many UT teachers who divide their time between North and South campuses. 4. Miss Jody Guzzo needs her lunch hours to catch up on grading worksheets for Modern Novel class.

## TRANSITION WAS SMOOTH INTO NEW ADMINISTRATION

A smooth transition into the new administration, headed by Dr. Thomas Parker, was the major goal of the 77-78 school board. The major thrust of the new administration would be the total enforcement of all school regulations.

Maintaining a balanced budget was another of the school board's goals. Through careful planning, the board held down expenses while simultaneously keeping the school furnished with the necessary learning materials.

The school board implemented instruction by evaluating the school's staff and curriculum through North Central Evaluation.

The board continuously worked for improved communications between the staff, students, administration, and the community by setting up goals with the aid of parents concerned with the education of students.

The lifted morale of the students shows that the board's goals are being achieved. Improved behavior, attendance, and a positive attitude in school are some of the results of the school board's efforts to improve the student body and make U T the best school in the area.

CHERYL PITTMAN

"I try to be visible—not only to students, but also to the teachers."

It's no mystery person who made this statement. Dr. Thomas Parker, new superintendent at U T, is not hidden behind any administration door. Instead, he often sits in on club meetings, eats with the students in the cafeteria, waves, smiles, and says a friendly "hi" when passing in the halls.

Dr. Parker has assumed this role of visibility because he feels that in order to make the right decisions, he must find out first hand what's happening outside his office.

Dr. Parker is very pleased to be a U T. "The school board is super and the kids and teachers are equally great," he stated.

When he came to U T, he saw the need for change. Wasting no time, he made the necessary changes, such as initiating stricter behavior policies.

Self-discipline and a positive attitude are needed for the student body, according to Dr. Parker. He hopes that his relationship with the students will teach respect and authority, but at the same time provide a comfortable feeling.

Mr. James Hall is a gourmet chef

## MR. HALL SETS THE KITCHEN ON FIRE WITH HIS FLAMING CHERRIES JUBILEE

**P**ssstt . . . Hey you! Come here a minute. If I tell you something, you promise you won't tell anyone? Okay, here it is . . . Mr. Hall, yes, Mr. Hall, the earth science teacher is a gourmet chef! Plus, he's a great wine maker!

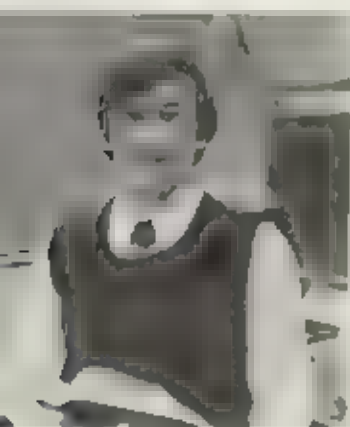

What do you mean "how do you know?" He told me! Mr. Hall says beef stroganoff, Duck ala orange, and chicken kiev are his favorite dishes. But, what really sets off Mr. Hall's dishes is the wine he makes to add to the flavor. He says that he makes all kinds of wines, but grape and cranberry are the easiest. Mr. Hall serves his wine at parties and to friends. His hobby of wine making is inexpensive (35 cents a fifth) and fun.

Being a gourmet cook has its advantages and disadvantages. Mr. Hall has worked as a cook for a state farm, where he cooked for 2,000 people, and also at Hawkeye Boys State, where he cooked for 800 people.

Did you happen to be at the YMCA the night Mr. Hall almost set it on fire? He was making flaming cherries jubilee and the stove caught on fire. WOW! He's had quite a few experiences.

Mr. Hall has been cooking and making wine for a little over four years now. His wife and he both enjoy it. What a hobby!

## THERE'S A '57 CHEVY IN HIS DRIVE AND A '31 MODEL 'A' IN HIS GARAGE

About fifteen years ago, Mr. Jim Small, art teacher, bought his first antique car for \$250.00. He later sold this 1931 Model A Coupe for considerably more.

With the Model A's profit came an undying love for old cars that is still going strong today. Mr. Small now owns two antique cars, a 1931 Model A roadster and a '57 Chevy two-door.

A special affection is bestowed upon his Model A, a convertible. It was in good condition when he bought it, but after hundreds of hours of restoration it is now in mint condition and worth over \$11,000.00.

The roadster has been taken to four shows since its completion. It has taken "best-of-show" all four times.

Whenever Mr. Small acquires another car he spends approximately two hours a night restoring it until it is finished.

## GYM TEACHER DOUBLES AS SKI PATROL DIRECTOR

During the weekends and in his spare time Mr. Eldon Partridge, gym teacher, is the director of the ski patrol at Chestnut Mountain Lodge near Galena, Illinois.

Mr. Partridge has been a member of the patrol for the past 9 years and the director for the past five years.

The main duty of the ski patrols is to give first aid to the skiers, no matter what the injury might be. The risky part of the job is that the person on patrol has to ski to wherever the injured skier is stranded. Thus, to be on the patrol, you must be an excellent skier.

Mr. Partridge has taken many Red Cross first aid courses to help him in his position.

The most common injuries to the skiers are broken arms and legs. Of course, sometimes it becomes serious, and that's when Mr. Partridge and the ski patrol do their highly specialized job.

When the patrol does save someone's life, they know that all the hours of hard work have paid off.

## MODEL AND JANITOR??

A physical education instructor at North Campus fills her spare time with two extremes-modeling and doing janitorial work.

Meet Mrs. Pat Peterson . . . model, janitor and PE teacher. She enjoys doing all three and it's obvious. She says that she likes modeling because it feels good to know you can continue looking good.

Often a part of Mrs. Peterson's modeling is her husband. They both model for Ada Gafney Shaff.

Mrs. Peterson has modeled some very expensive clothes, the most expensive being a \$4,000 fur. She gets paid as much as \$20.00 an hour for modeling.

On the other end of the extreme is her parttime janitorial job in Rock Island, which believe it or not, she also enjoys.

GEORGINA PUENTES

There's nothing like wearing a \$4,000 fur coat while modeling.

## GOVERNMENT TEACHER RACES CYCLES, TOO!

Mr. Gary Wagle has raced everywhere — Sterling, Peoria, and Morrison

What do teaching government at UT and riding a motorcycle have in common? Nothing actually, except that Mr. Gary Wagle does both.

He taught himself to ride and got his first motorcycle fifteen years ago. He began motocross racing ten years ago.

Mr. Wagle races on closed cross-country courses with jumps and difficult terrain. Today he also has a street machine and participates in enduro racing. This is a race against the clock . . . across country, on and off the road . . . and is similar to a sportscar rally.

A member of the Tri-City Motorcycle Club, which promotes sport motorcycling, he races in the midwest around Sterling, Peoria, Morrison, and the surrounding area. The competitors range in age from their early teens to fifty years.

The protective gear used in motorcycling is similar to that used in hockey and football; it includes gloves, helmet, and face mask.

Over the years, Mr. Wagle has had a few small injuries, won five or six trophies, and has spent a lot of money on motorcycling.

KATHY BUNCH, HEATHER SLOMAN

## SHE HELPED TO START CONSUMER ED

Mrs. Ardell Johnson retires this year after teaching for twenty-three years in Illinois schools

Dashing through the snow in a one horse open sleigh. Recognize that song? Mrs. Ardell Johnson is quite familiar with it, as she hums this popular tune while baking Christmas cookies — one of her favorite pastimes at Christmas time.

Mrs. Johnson retired this year after spending her last year of teaching at UT. Mrs. Johnson has taught Consumer Education, Con-

sumer Mathematics, all four typing classes, Shorthand and bookkeeping. She has been at both campuses and helped start the consumer education program.

Mrs. Johnson taught for twenty-three years in Illinois and Iowa public schools, two of which were in a business college. She was also the go-between for the American Field Service adult chapter and has housed two

AFS students.

The future looks bright for Mrs. Johnson because she will always carry her fond memories of teaching school while she partakes in other things she enjoys such as reading, oils of handcrafts, and just relaxing.

## ON-THE-JOB LEARNING WITH CO-OP

**D**istributive Education, Diversified Occupations, Office Occupations, HERO club, and Agri Business are five co-op classes available to UT students

Distributive Education helps students who have jobs at such places as Haag Drug, Bond Wa.greens, gas stations, or any retail business

Diversified Occupations was first started in 1968. The program helps students on jobs such as mechanics, illustrators, nurse's aides, doctor's aides, etc

Some of the Office Occupations Club activities included holding a bake sale and sponsoring a car in the homecoming parade. They also sold Tom Wat miscellaneous items, from which money was contributed to the Goodfellow's Christmas fund. The Office Occupations Club attended a state conference in April.

The major HERO club activity was the annual employer-employee banquet.

Agri Business travelled to Washington, Iowa for a farm progress show, sold stadium cushions, and made posters for new recruits.

# WORKERS SPEAK HIGHLY OF CO-OP

A variety of co-op courses is offered to UT students. Through these classes, students get jobs in which they learn and gain experience in the field of work in which they are interested. Part of the student's grade depends on reports from their employers.

Larri Fox works as a veterinarian's assistant. "I want to be a veterinarian, so my job is good experience," says Larri, whose co-op class is agri business.

Mike Riley, senior, is also in the agri business co-op class. Mike, who works as a greenhouse assistant, says of his job: "It's given me good training for college and the job I want to do later."

From the diversified occupations class, Tim Wassell obtained his job as respiratory therapist at Illini Hospital. "The exposure to the hospital atmosphere is important," said Tim, who wants to study medicine.

Sandy Sherrard, senior, works at Illini Hospital. Sandy, a nurse's aide, says this of her job and the co-op program: "I intend to go into nurse's training, so from my job I'll learn the basics of nursing. I don't think I could even have been hired as a nurse's aide if I hadn't been in co-op."

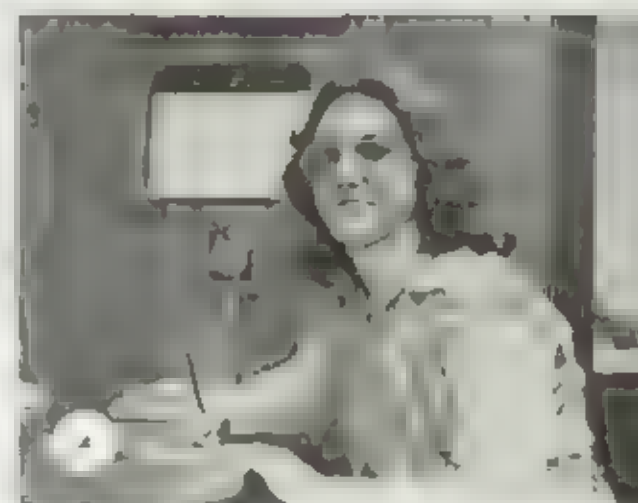

Terry Luten, senior, works at Lutheran Hospital. There she is a dietician, preparing food for patients. "It's a tough job if you don't know what you're doing, but I like it because I deal mostly with patients," says Terry, whose co-op class is home economics related occupations (H.E.R.O.).

Equipping boats is Mike Snyder's job at Ted's Boatarama. Mike says, "I like the job because that's what I want to do later in my life, that is, work in mechanics." Mike is in the D.O. class.

Having to go to both school and work, it may seem that students don't have time to adequately concentrate on their school work. Marty Coe, who works in the mailroom at the Daily Dispatch and is in the D.O. class, says, "I find time for both my schoolwork and my job. The Dispatch knows I go to school, so they let me have time to study."

The co-op program is very beneficial to UT students, according to Larri Fox. "The program is really great. For some it's an easy grade, but for others it's really worthwhile."

CHERYL PITTMAN

1. Larri Fox, an Agri-Business student, enjoys working with animals as an after school job 2. Marty Coe is busy at work in the mailing room of the Daily Dispatch, a job he got through diversified occupations class. 3. Laura England, a member of the H.E.R.O. club, prepares food at Der Weinerschnitzel. 4. Nancy Carlton takes dictation at the insurance company where she is employed. 5. Sandy Chandler got her job at F.W. Means through office occupations class. 6. Brenda White, a D.O. student, takes the blood pressure of a patient!

## COUNCIL ADDS COMPUTER AND TURKEY DANCES TO CALENDAR

Order in the court, order in the court

Mike McClure, student council president doesn't need to say "Order in the court." The atmosphere at student council meetings was under control this year as parliamentary procedure was strictly enforced.

Mike said, "We've got a bunch of hard-working people now that we've added some order to the meetings."

Student Council met once a week for organization of activities inside and outside of school. The inside school activities included dances, such as the homecoming dance. It hit an all-time high with over 400 people in attendance. This year was the first time a charity dance was held. The Turkey Dance proceeds went to a charity that area churches set up.

Other efforts of the student council were the computer dance, mini-course day, and student council week.

Those cookies are for the teachers! 4. A very needed door mat was donated to the school by last year's student council. 5. Freshman Class delegates are (front) Melanie DeDecker, Shelly Thornton, Lorraine Mascari, Lisa Lampo; (row 2) Chris Rangel, Tammy Ball, Beth Hoff, Betsy Sprool, Kim Hanson; (back) Tracy Wright, Joyce Leggett, Andrea Hill, Maria Petaras, Julie Meredith, Debbie Joering; (not pictured) Paul Bagatelas, Tracy Detsaye, Rhonda LaFeiver, Lisa Snauwaert, Cheryl Wiedenmann, Karen Wiedenmann, Tamu Derby, and Kellie Ford.

# STUDENT COUNCIL continued

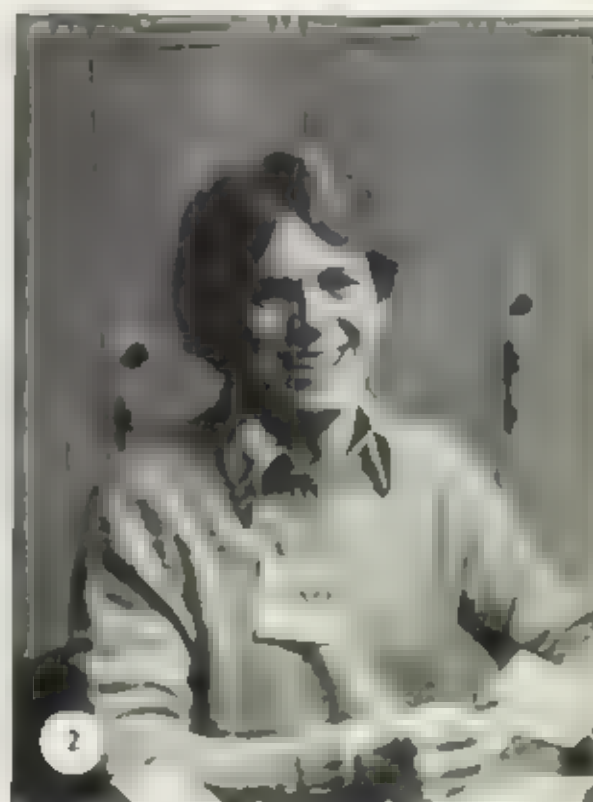

1 Oscar Snyder shows off a prize he got between classes on Fifties Day 2. Crazy Costume day was a hit for all the sock collectors here in UT 3. Clash Day brings out the craziness in all of us. 4. Mr. Grill Francis puzzles over his next chess move on Mini-Course Day 5. Mr. Gary Phillips performs an experiment during this year's Mini-Course Day 6. The biggest responsibility for Student Council is still putting on successful dances

1 Mary Adfinger gets all tied up with things during Student Council Crazy Costume Day. 2. Mike McClure is one of the many student council members that worked hard to make the Computer Dance a success. 3. Girl watching is a very important part of the 50's Day, part of Student Council Week. 4. Kelly Sivertsen and Oscar Snyder take time to chat between classes during 50's day. 5. You can tell by the smiling faces that the homecoming dance was very enjoyable. Student Council, your hard work seems to have paid off!

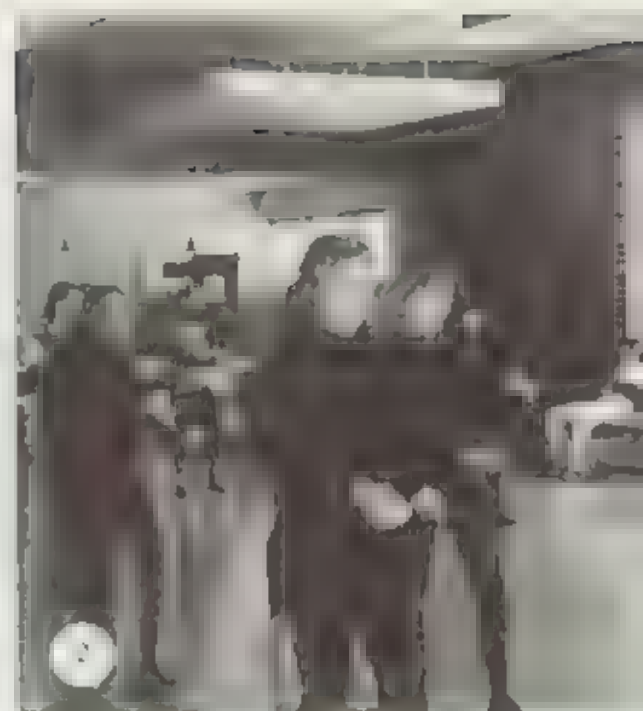

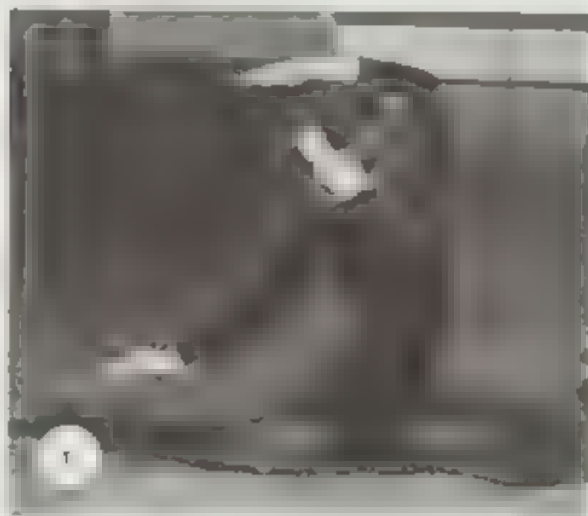

## ORCHESIS DANCERS ENTERTAIN AT HALF-TIME

**W**hen you put a group of hardworking, creative dancers together, add a little fun and a lot of practice, you come up with Orchesis.

There were 18 Orchesis members — all girls who practiced in school five hours a week and then after school almost every night. Imagination, strength, and endurance are three qualities that Orchesis members possessed.

KERRY DUFF

KERI FRANCOIS

1. Concentration is important for many of Miss D'Angelo's dance poses, as shown by Mary Beintema. 2. Precise timing brings the whole group together in this "Star Wars" choreography. 3. Carla Perry, Carise Dawson, and Sharon Rea take a fast minute count before joining practice. 4. Mary's strength and grace produce another beautiful pose during practice. 5. Practice helps Dawn Smit perfect a pose. 6. Orchesis members are (front) Debbie Jackson, Laura Lapacznek, Kathy Sproul, Mindy Ruthey, Chris DeLaRosa; (row 2) Carla Perry, Corrine Ybarra, Andi Isaac, Loretta Medina, Carise Dawson, Joan Nicholson, Sharon Rea, Carol Bert, Wendi Wells, Kim Volrath, Dawn Smit; (back) Carlotta Weathers, Mary Beintema, Tracy Jacobson, and Leslie Mayfield.

1. After all this practicing, it's over in a few minutes. 2 "Looks as if someone forgot her shoes, right Lorrie?" 3 Cerise Dawson has tortured herself before the weekly weigh in. But when she realizes that she is not over the limit, she can't resist a Hostess cup cake. Will Leslie do the same? 4 Trick photography turns a graceful formation into a pretty silhouette. 5. In Orchestis you practice till you're perfect, then practice some more.

# GIRLS' ATHLETIC ASSOCIATION OPENS MEMBERSHIP TO BOYS

Something new and different has happened to GAA everything is co-ed! All units offered are now opened to both guys and girls.

Mrs. Pat Peterson, four year sponsor of the association, said "It's working fine as co-ed, but because the organization's name is Girls Athletic Association, boys are hesitant to come out."

This year's GAA membership boasts approximately 80 members who participate in the units of their particular interest. Units offered are softball, swimming, volleyball, bowling, disco dancing, and flag football.

One fund raising event for the organization was the selling of candy in the fall. GAA also sold carnations on Valentines Day. They sponsored a Christmas party at an area rest home in addition to holding their annual spring dance.

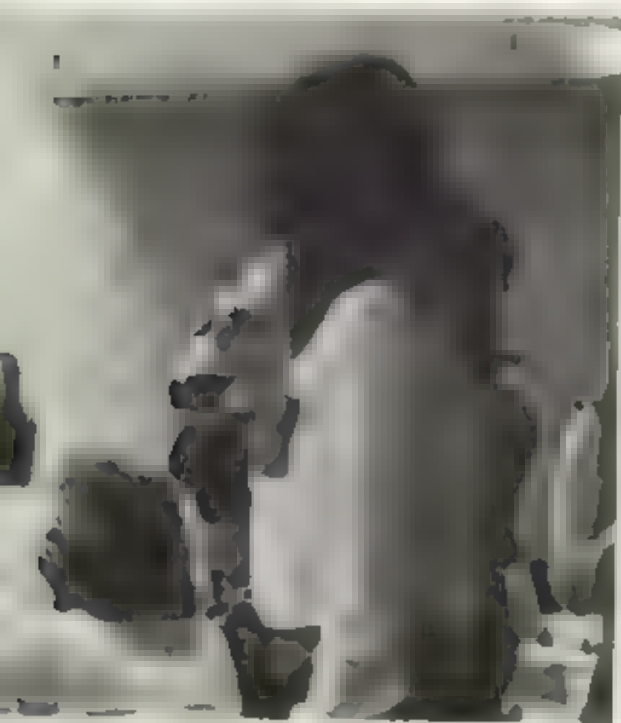

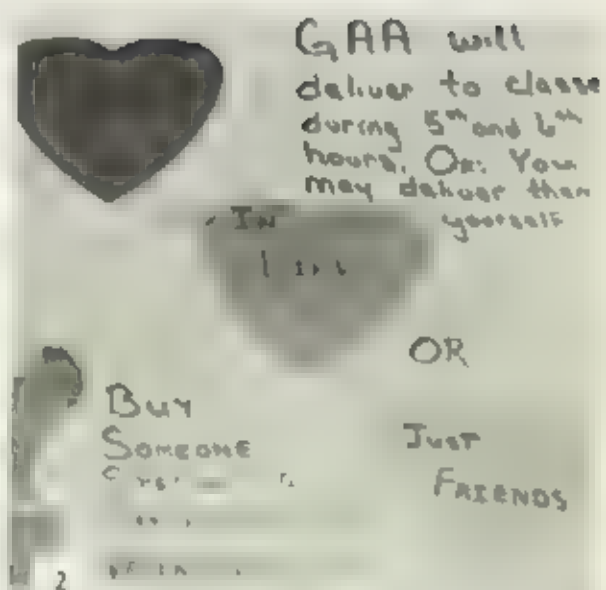

Mrs. Peterson said GAA is an important program "I think this school needs a good intramural program for kids who aren't superstars in sports. GAA provides this."

CHERYL PITTMAN

1. GAA Board meetings are conducted Indian Style. 2. As one of the GAA girls has found out, a slight mislooting and you may find yourself in the gutter. 3. In the fall of the year, volleyball is always one of GAA's successful events. 4. Finding the right ball is like looking for a needle in a haystack. 5. Mrs. Pat Peterson has been sponsoring GAA for the past four years. 6. South Campus board members are (front) Brenda Stewey, Lisa Gehant, Kim Benson, Rhonda Correll, Diane Zmuda, Gayle Peterson, (back) Lynn Hartman, Erin McCarter, Michelle Viscioni, Laurie Lapaczonic, Karen Winger, Judy Lovell, and Mary Cosgrave; (not pictured) Shari Fink and Sharon Holmes.

1. GAA Royalty are Mary Cosgrave, Terry Wright, Erin McCarter, Margaret Montgomery, Michelle Viscioni, Judy Lovell, Lynn Harbman, Shari Fink, Karen Winger, and Karen Mcbergall. 2. Again this year GAA sold Valentine carnations with great success. 3. GAA Sophomore Board members are Leigh Skull, Brenda Dickinson, Rhonda Rodgers, Lori Holmes, Joni Cosgrave, and Cindy Gehant. 4. Beth Feller buys a carnation for her special Valentine. 5. Kim Benson reads herself for another of her fantastic rolls. 6. Form isn't one of Brenda Sheley's main virtues.

## THEY'RE NO FOREIGNERS TO CLUB FUN

**D**ances, trips, fund-raising activities, songs education, and a whole lot of fun are what the foreign language clubs are all about.

The three clubs, German Club, Spanish Club, and Spanish Honor Society are made up of students with one common interest, a foreign language.

The German Club is the most active of the three clubs. Each of the approximately twenty members paid one dollar for dues and went to the Amana Colonies for Oktoberfest. Juniors and seniors went to Jurners for a Christmas dinner. The club sold German candy.

The Spanish Club is a newly formed organization at U T this year. Spanish Club members attended the performance of the Spanish Flamenco Dancers.

Spanish Honor Society is for students with a 3.8 average in Spanish and who are a U T student in good standing. Their biggest event of the year is the annual candlelight initiation of the juniors.

KONNIE FLOYD

1. German Club officers are Danette Senn, Secretary; Mike Woodruff, president; Merry Rohweder, treasurer; (not pictured) Jeff Sutton, vicepresident. 2. ## CHANGES ARE RECORDED IN SKYLINE

**C**hanges — we all go through them. Sometimes we change a great deal and sometimes so very little. Keeping in mind this theme, the Skyline staff had little trouble finding examples of this within the school.

The '78 Skyline went through many changes two new co-editors, Lisa Miller and Annette Henry . . . more color . . . feature stories highlighting students . . . teacher features . . . larger staff . . . more student photography . . . new camera . . . new darkroom . . . just to name a few.

Some things never change. This year's adviser is still Mary Conger, whose famous line is "we're never going to make this deadline if you all don't keep busy." But somehow we always made it.

This Skyline annual, with the theme "Everything's Different", records the changes in the world around us so that we can better understand the changes within us.

STEVE BOYER

1. The 1978 Skyline editors, Lisa Miller and Annette Henry, are caught at an awkward time as they find themselves with nothing to do. 2. Adviser Mary Conger is ever so busy learning more about constructing yearbooks. 3. Konnie Floyd is hiding from work, as usual. 4. As usual, Leonard is not listening. 5. Typing is a fundamental part of Skyline. 6. The 1978 Skyline staff consists of (front) Keri Francois, Erma Escontrias, (middle) Mary Adfinger, Georgina Peurries, Ann Barlow, Konnie Floyd, Kris Cox, Heather Sloman; (back) Kerry Duff, Beth March, Leonard Schweigen, Steve Boyer, and Cheryl Pittman.

1. Skyline photographers are (front) Marcel Reasby; (back) John Reger, Jeff Wiedenmann, Jeff Paton, and Randy Steffenson. 2. Annette Henry stares blankly after the usual hustle and bustle of an editor's day. 3. Copy editor Beth March snickers as she relaxes and reads the latest feature story. 4. Kerry Duff (alias Barbara Walters) reports the latest news to Lisa Miller. 5. Kathy Bunch smiles happily as she swiftly types in time to make a deadline.

1. Eagerly awaiting their pictures to be taken are Lorna Spencer, co-editor, Mrs. Susan Kocanda, adviser, and Margaret Montgomery, co-editor. 2. The layout staff of the key consists of (front) Margaret Montgomery; (row two) Maryann Zywo, Steph Gardner; (row three) Lorna Spencer, Sharon Hanson; (back) Kelly Duff and Kerry Kipp. 3. Attendance was often high at Key meetings.

4. Don't worry, Margaret, you're not the only one that feels that way. 5. "Are you kidding? we can't publish that sort of thing," says Lorna Spencer with a surprised look on her face.

## INVOLVEMENT IS 'KEY' WORD

### XTRA-XTRA READ ALL ABOUT IT

The place to read all about it is the Key. The object of the Key staff this year was to produce a newspaper for the students and to get them more involved in school activities.

"Involvement" was the "Key" word, as the new adviser (Mrs. Sue Kocanda) and co-editors (Lorna Spencer, senior, and Margaret Montgomery, senior) came up with new ideas for student interests. Such innovations were The Eye Game, Mystery Student, and the Ecology Sketch columns.

Twenty students attended the Key meetings on Tuesdays and Thursdays. Although twenty students are a good size staff, Margaret says, "The students that don't attend the meetings don't realize how hard it is to print the school newspaper."

2. Most people don't realize that the Keys are hand-stuffed.  
3. The Key is more than just co-editors and reporters; it also consists of Lisa Miller, business and advertising manager; Jan Williams, assistant business and assistant advertising manager; Heather Sloman, exchange editor; Cindy Andrew, South Campus distribution manager; and Maryann Zywoł, North Campus distribution manager.

# SPEECH COMPETITION LURES NORTH CAMPUS STUDENTS

**S**peech Club is an organization that is up and coming at UT. Sponsored by Miss Judy Blix and Mrs. Paula Petersen, the Speech Club membership grew this year due to a surge of interest among North Campus students.

The club met every first Wednesday of the month to set up practice sessions for the upcoming meets. Tournaments were held in as faraway places as Normal, Illinois during the season which lasted from October to March.

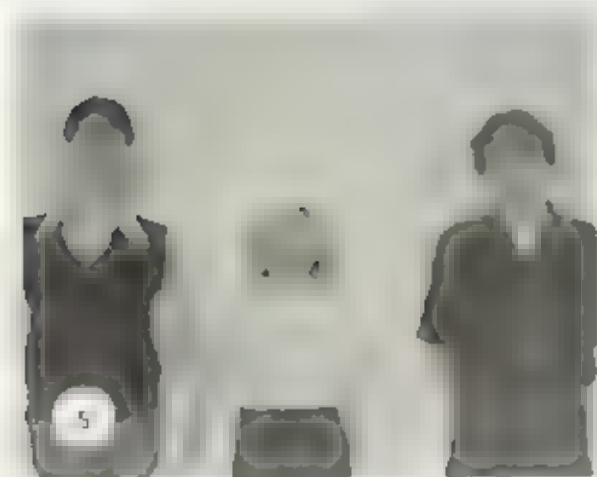

Chara Benson, junior, commented "Speech Club is growing, but not enough yet. We need more involvement from the students."

Kathy Horton, junior, echoes Chara's thoughts, "Even though we have more members this year, I think Speech Club needs to be brought out of the dark because it's really fun."

President of the club, Martin Dawson, senior, believes speech is an important part of education. "Speech Club is quite an experience. It has changed me a lot by building up my self-confidence. I'm no longer afraid to speak in public."

If the speech club members are having fun and learning at the same time, maybe the rest of us are missing something.

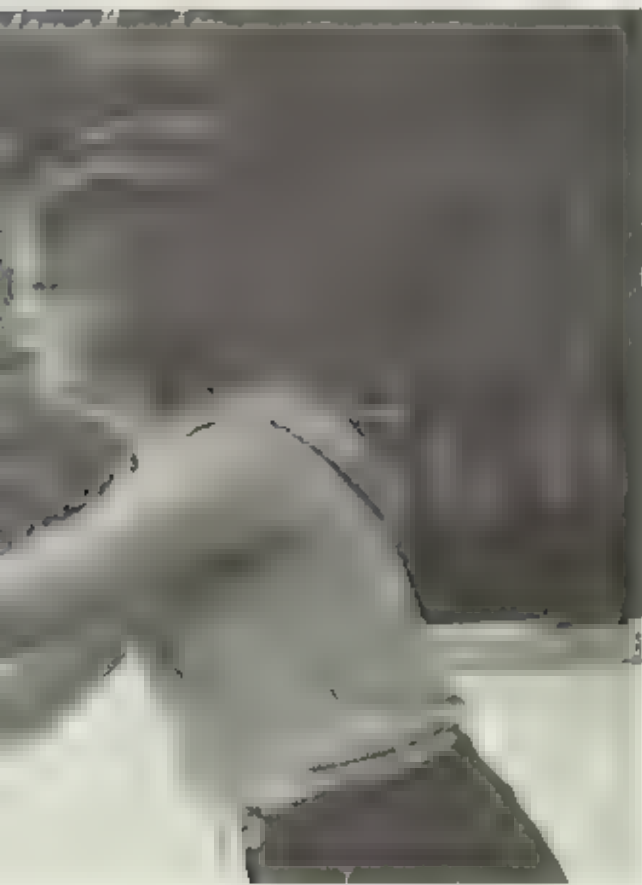

CHERYL PITTMAN

1. Cheryl Ralph and Nancy Ely psycho themselves up for their upcoming scene in "Morning Becomes Electra". 2. Miss Blix must listen to a lot of scenes before deciding who goes to tournament. 3. Chara Benson, practicing prose, has placed in several tournaments. 4. "I'm speaking to you as a woman now, not as a daughter," says Nancy Ely to Cheryl Ralph during their duel performance. 5. Speech Club officers are Bill Ralph, vice president; Chara Benson, treasurer; Martin Dawson, president; and (not pictured) Kathy Horton, secretary. 6. Freshman debaters are Paul Bagatelas, Ted Marlin, John Linquist, and Louis Pittman.

1. Reader's theatre members are Chuck Seaman, Cheryl Ralph, Robert Anis, Kerry Duff, Gerald Carlson, Tracey Williams, Lisa Cox, Bill Ralph, Kevin Dawson, and Marty Dawson. They won first place in conference competition. 2. Kris Cox finds a quiet place in the hall after school to work on her speech for an upcoming tournament. 3. Miss Peterson regularly works with the debate team and speech club members after school. 4. Bill Ralph and Lisa Cox pool their efforts in a game of ping pong during Speech Club's Christmas party. 5. Speech Club members are (front) Kris Cox, Gerald Carlson, Lewis Pittman, Ted Martin, Kevin Dawson, Jeff Zoller, Chara Benzon; (back) Cheryl Ralph, Nancy Ely, Lisa Cox, Robert Anis, Bill Ralph, Joe Blugust, Martin Dawson, and Mike [unclear].

## LETTERMEN HELD ACCOUNTABLE UNDER NEW POINT SYSTEM

**S**tudents who have earned a varsity letter by displaying their talents in a particular sport are eligible to become members of Lettermen's Club. Perhaps the best way to identify a letterman is to look for a person clad in a white sweater with orange and black lettering on most any Friday.

The Lettermen's Club is sponsored by Coach Cliff Talley with the occasional assistance of Gene McCarter, Athletic Director.

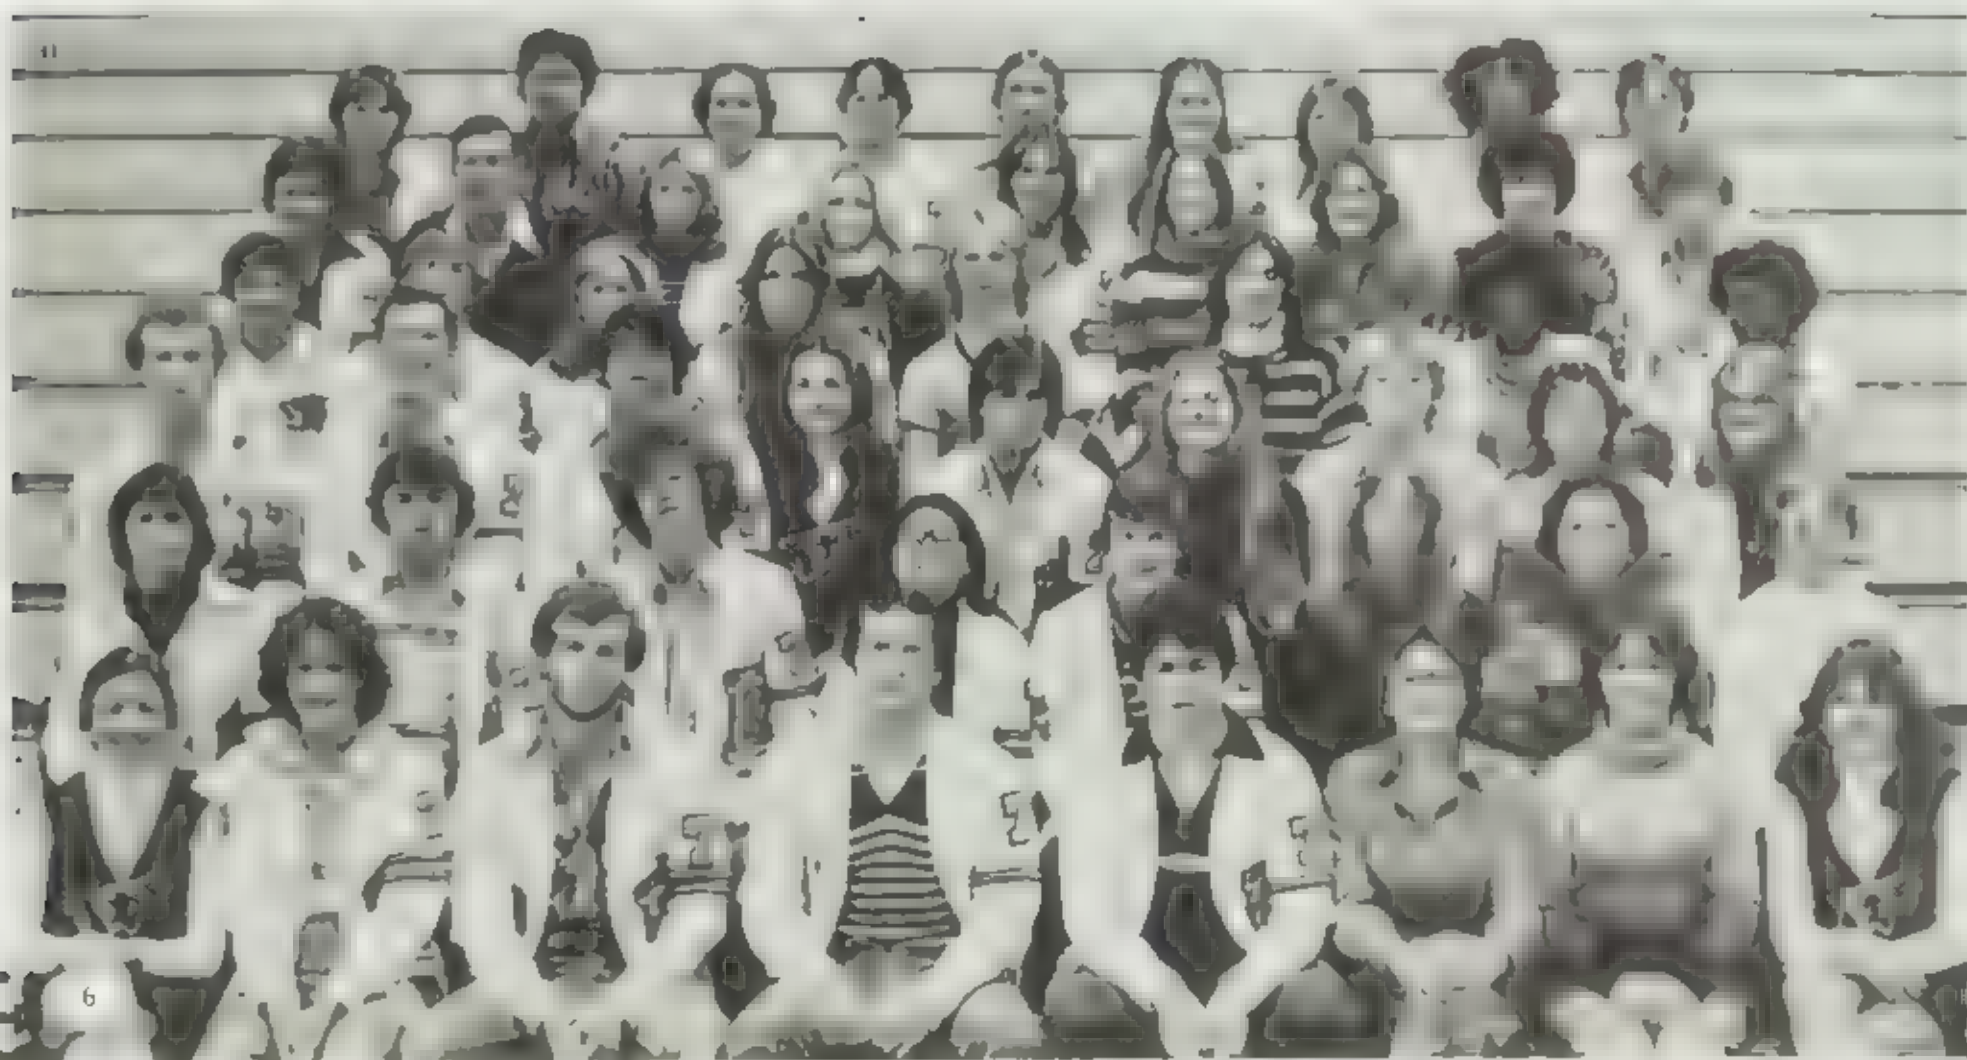

There is always some fighting excitement and fighting fatigue at the start of Friday morning's meetings, then the members of the Lettermen's Club give their undivided attention to president

Kurt Simmons and secretary Karee Neibergall.

In order to participate in the final activity of the year, club members must have accumulated a certain number of points. Points can be obtained by attending meetings, ushering at games, and helping with money-making projects.

Lettermen do much more than just attend meetings and usher at football and basketball games; they also hold car washes, go to college basketball games, have picnics, and sell hats and pizzas.

CHERYL PITTMAN

1. Washing cars takes keen eyes, expert hands, and lots of soap and water 2. Lettermen Larry Jones helps with crowd control after the varsity basketball games 3. Al Mache is out to sell as many pizzas as possible during Lettermen's pizza fund raising drive in January 4. On Friday morning a Lettermen can be spotted a mile away 5. After the games keeping people off the basketball courts is one of many Lettermen jobs 6. ## MEMBERSHIP LIMITED TO THOSE IN GOOD STANDING

**W**e've all seen them — the kids that belong to the National Honor Society. They walk through the halls with their T-shirts bearing the Honor Society insignia, but just what is The National Honor Society?

The members of the National Honor Society under the advisorship of Miss Loryann Eis, got together and raised money for the poor and needy. Some of the activities they held were car wash, bake sale, dance, and hay rack ride.

But the National Honor Society is more than that. It's a group of specially selected and invited students who work together for the betterment of themselves and those around them.

This year's president, Mike Woodruff, summed up his year on the Honor Society. "I've enjoyed National Honor Society as a club and the prestige to serve on it. I also hope the club as a group can leave an impression on the school as being a hard working group of students who had a lot of fun while doing something that means a lot to them."

### HIGH SCHOOL BOWL

"What is the title of both a comedy written by Aristophanes and a movie directed by Alfred Hitchcock?"

If you can correctly answer this question, perhaps you are a good candidate for the High School Bowl team. After sponsor Miss Pat Petersen interviews teachers to find their opinions concerning students worthy of competing in High School Bowl, she selects five. Theresa Burgland, Joe Bilquist, Gerald Carlson, Jeff Zoller, and alternate Teri Greer comprise UT's '77-'78 High School Bowl team.

The team practices twice before appearing on television, listening to questions and sharpening their reflexes in order to press their buzzers before the opposing team does. At the television studio, they practice ten minutes with the television personnel, answering sample questions before going on the air to compete with other area high school teams. Once on the air, the competition lasts for half an hour.

In the High School Bowl, one loss eliminates the team from further competition. There are five matches leading up to the championship, consisting of such trivial questions as this one worth ten

points: "If you witnessed the controlled emission of thick smoke by an aircraft aloft which formed a message that was readable below, what would you be witness to?" The answer to this question (of course) is skywriting. The answer to the first question about the title of both a comedy and a movie is "The Birds." The answers were on the tip of your tongue, right?

### UTHS VISITORS TO ROTARY

Every month two senior boys are selected for UTHS Visitors to Rotary. Every Thursday for a month they attend a two-hour luncheon, which is given by a men's organization for the community.

During the luncheon they have a guest speaker. At the meetings the Junior Rotarians sit with businessmen they've never met before and talk and get to know each other. On the fourth Thursday the student gives a speech and tells what he learned by attending the luncheons.

# CLUBS SPAN INTEREST RANGE FROM GUNS TO WELDING

## Rifle Club

Not only is Rifle Club a club, but it is also considered a competitive team. This year the team competed in postal matches, sectional matches, and their annual shoulder-to-shoulder matches, which were held in Peoria. All the students are usually competing for a team score, but some compete for individual scoring.

Mr. Oliver, Rifle Club advisor, said that this is one of the most expensive schools sports. The club is given ammunition, targets, and loaned guns from the Federal Government.

The rifle range is located at North Campus.

## Tri-Mic

Tri-Mic, one of the first vocational clubs at UT, has a new advisor. After assuming the position for ten years, Mr. Gary Pregracke decided to leave Tri-Mic. Now this vocational club, which covers such things as machine shop, welding, wood shop, and drafting, is under the advisorship of Mr. Ronald Sonju.

Tri-Mic, which stands for triangle and micrometer, has no one purpose. Some of the goals are to build character in its members, to help members by giving them confidence, and to help them get along with people.

But mostly Tri-Mic gives its members a chance to share common interests. It is a chance to discuss and plan the future.

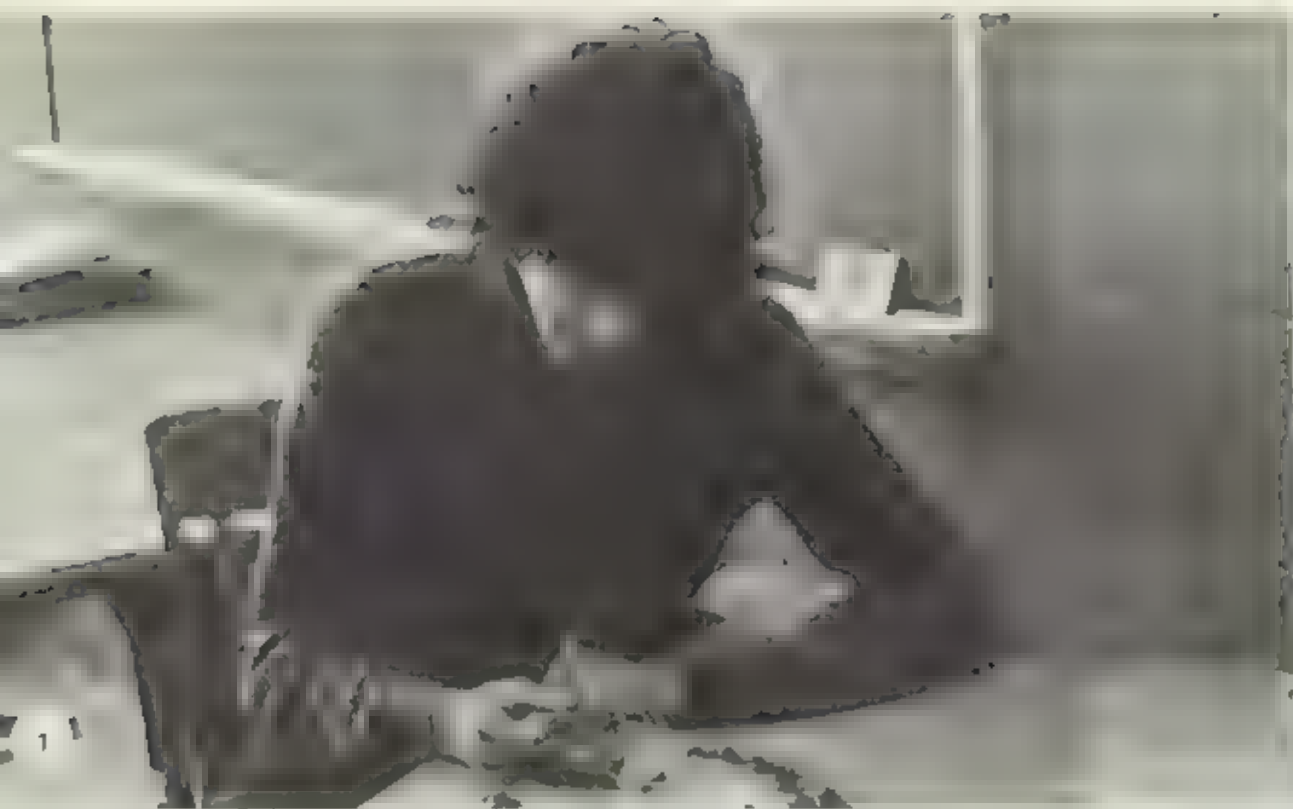

Some of the activities Tri-Mic provides are picnics, dinners, bowling meets, and volleyball nights.

# CHEERLEADING

## "IT'S WORK, BUT IT'S EXCITING; YOU GET CLOSE TO PEOPLE"

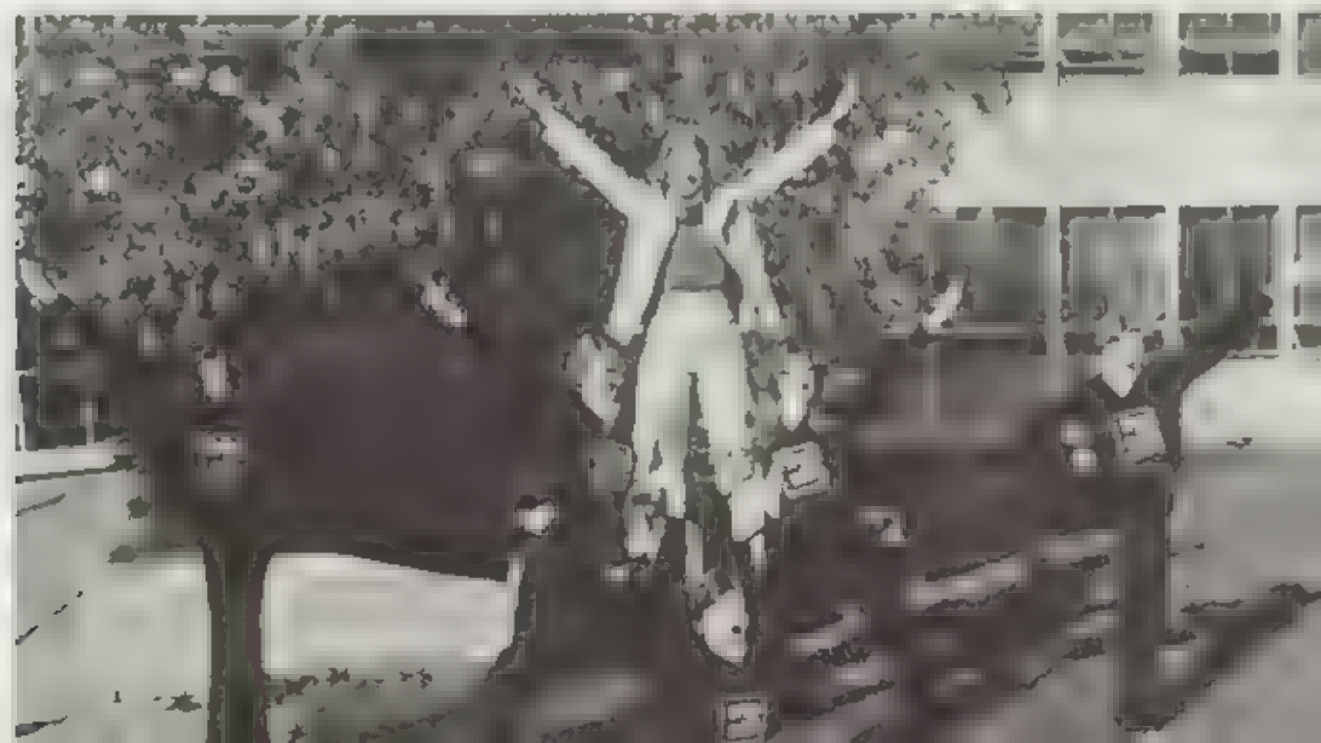

Kathy Bunch, Senior

**D**uring the summer the varsity football cheer leaders went to a cheerleading camp in Galesburg and spent four long days working together as a squad. They brought home many new cheers and ideas to change some of the styles and techniques that have been used in the past.

Basketball season quickly fell upon us. And so did the first basketball cheerleading tryouts. Just two weeks before the first game, veterans Mary Adlinger, Kathy Bunch, Mary DeSmet, Erin McCarter, Denette Senn and Tammy Shamsie worked hard teaching mounts, formations, and cheers to newcomers.

"The '77-'78 wrestling cheerleaders are one of the most dedicated and enthusiastic squads we've had", said Mrs. Pat Hanlin, coach. "This is partly because of the closeness they feel to the wrestlers and the sport of wrestling." Not only do these girls cheer for the wrestlers, but they make posters, decorate the locker room, and write to the individual boys to encourage them before a match.

1. Varsity wrestling cheerleaders yell out what all dads want to hear. 2. "Go Panthers Go We know you can do it" is just one of the many cheers the varsity cheerleaders do during a game. 3. ## GIRLS' FIELD HOCKEY

# "WE WORKED HARD AND PLAYED TOUGH"

Karen Winger, Senior

What group of girls would drive five hours to play a game, run out of gas and still have fun? The answer to that is girls' field hockey team.

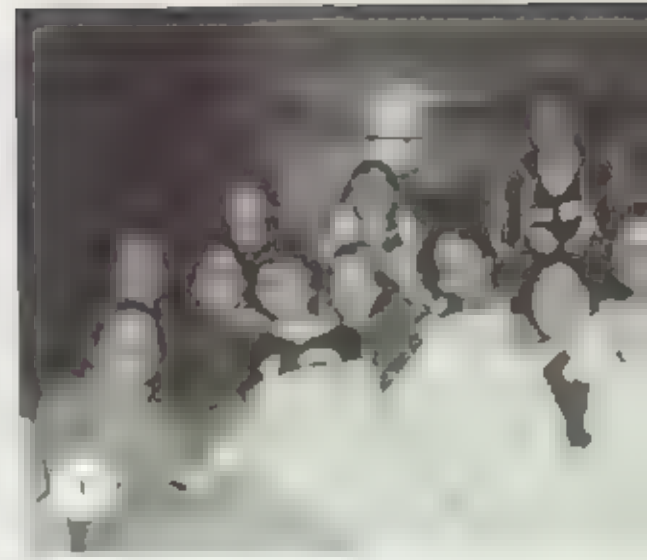

Because of the absence of competition in this locale, the girls were forced to travel a great deal. Mrs. Linda Wadsager (the only woman to coach an athletic team at UT) says that even though they had only two home games and a record of 2-3-1, teamwork was the biggest factor that the girls could depend on. It was the best all around team she has ever had.

Because of the new pool, the girls had to get accustomed to a new field. This field wasn't regulation and the girls complained that it was muddy and very slippery.

# GIRL'S GOLF, GIRL'S BOWLING

## "THERE WAS MORE SPIRIT AND TOGETHERNESS THIS YEAR"

Annette Henry, Senior

Coach Ron Holmer enjoyed coaching girls golf for his first year. "We had a good time", he said. "This was the year for rapid improvement."

Though they had a losing season, the girls improved their scores. Ruth Klauer started off the season with 80 to 90 strokes and ended up with approximately 60.

Though the weather wasn't as bad as last year, there were times it gave the girls trouble. In the district tournament, Coach Holmer pulled the girls out of competition after only six holes. Freezing rain and a 38° temperature were the reasons. To continue to play would have meant three more hours in the rain.

Coach Holmer believes the girls have the potential to make a good team. They just need more experience. He said that Annette Henry, senior, was the only one who could hold her own in competition with the other schools.

### Girl's Bowling

Girls' bowling, however, had a much better season.

The twelve member team, coached by Linda Wadsager, lost only four matches. And they won second place in district play.

Coach Wadsager said they had "every hope of going to state. It was a great disappointment not making it."

The district tournament started at 10 a.m. There were three games in the first round and six games in the second. The team's chances to win were good until the last game, which they lost by 60 pins.

Coach Wadsager attributes the loss to the fact that the district was bigger this year with more competition.

## "STATE FINALS MADE LONG HOURS OF PRACTICING WORTH IT"

Mary Jeanne Vyncke, Senior

Playing on the newly resurfaced courts, the girls' varsity tennis team highlighted its season by winning both the Western Big Six conference title and the District championship. Although victorious in but six of fifteen dual matches, the Panthers played their best tennis during the tournaments. The Western Big Six conference win featured a third place in singles by senior Mary Jeanne Vyncke. The District win was due to the fine showing of two doubles teams which qualified for the state finals (Vyncke and her partner, senior Shelly Laud, and the Holmes-Wiedenmann duo)

Underclassmen dominated this year's 18 member squad as there were but two seniors. Playing in the varsity singles matches with Vyncke, Laud, Lori Holmes, and Wiedenmann were juniors Sharon Holmes, Kim Benson, Rhonda Correll, Brenda Sheley, and freshman Julie Ackeborg. Joining this group for doubles play were junior Amy Davison, sophomores Karen Juehring and Susie Vyncke, and freshman Karen Sheley. Rounding out the squad were juniors Carole Nemerguth and Donna Hunt, sophomores Lisa Johnson and Sandy Tyler and freshman Cheryl Wiedenmann

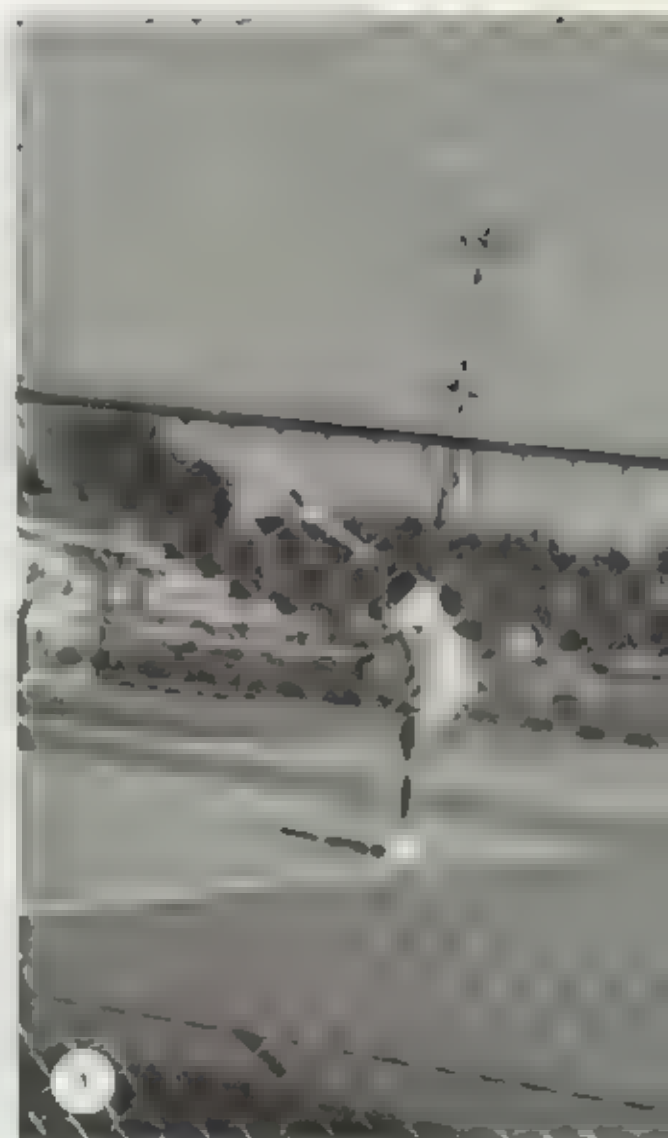

A fitting climax to the season were the winners of the special awards as voted by the entire team. For the second year in a row Mary Jeanne Vyncke was elected Captain, Julie Ackeborg was elected Most Improved Player; and dual awards went to Lori Holmes and Karen Wiedenmann as the result of a tie for Most Valuable Player

### Junior Varsity Girls' Tennis

Practicing from 3 to 5 o'clock every afternoon at North Campus, the girls' junior varsity tennis team ended a winning season this fall with a record of 9 wins, 5 losses and 1 tie

The team was coached by Mr. Adamson for the second year. Mr. Adamson admits that his title of assistant girls' tennis coach is rather misleading, since he coaches the freshmen and sophomore girls in order to give them training and experience for when they move on to the varsity team

## GIRLS' BASKETBALL

# "TEAMWORK IS THE BASIS OF OUR SUCCESSFUL TEAM"

penny draper, Senior

Before the season was under way, Coach Doug Strand predicted the way the girl's basketball season would go. "I look forward to a winning season. I want East Moline to be the team to beat," said Coach Strand.

The Panther gals did indeed compile a winning season and provided stiff competition to their opponents.

"We have a well balanced team that's learned a lot. Its young made up of juniors, sophomores and one senior," the coach said.

The team had depth in scoring with Lynda Talley, center, along with Sue Randolph, Tammy George, and Diane Zmuda dominating the boards in the dual center offense. Penny Draper (the lone senior), Peggy Downing, Cheryl Pittman and Ann Debowski rotated in the three guard forward positions as well as Kathy Putt, Sylvia Allen, Sharon Bailey, Kim Klinefelter and Teri Greer.

"The girl's basketball program is slowly improving," said Coach Strand. "There were four freshman games this year while last year there were none. We have more fans and therefore bigger crowds at games too."

Coach Steinmetz also accomplished his goal for the JV team. "The major goal for the JV team is to let everyone gain playing time," he said.

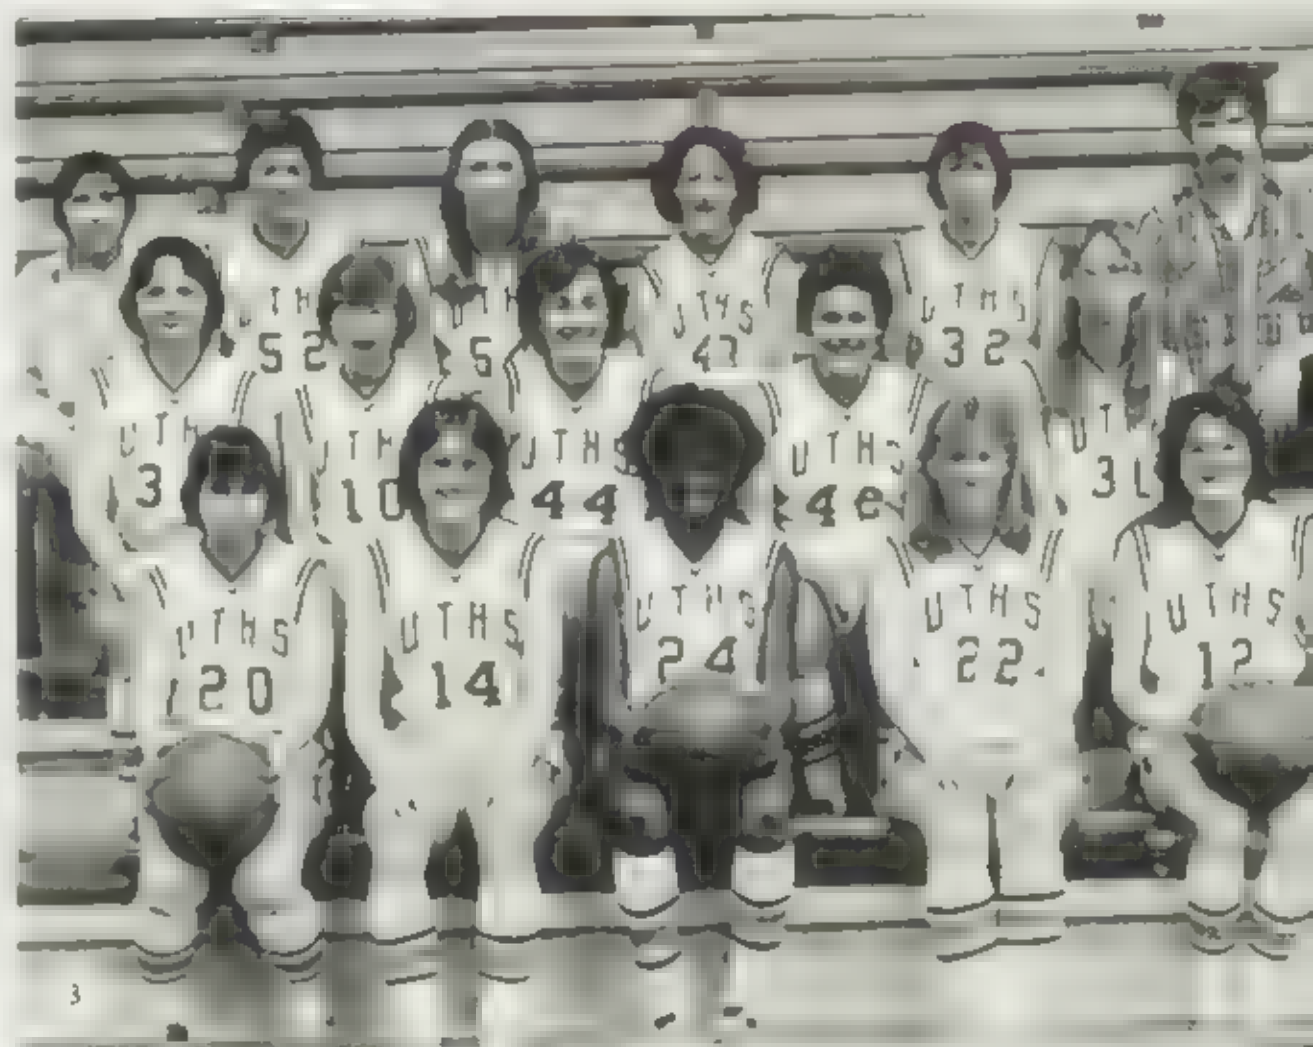

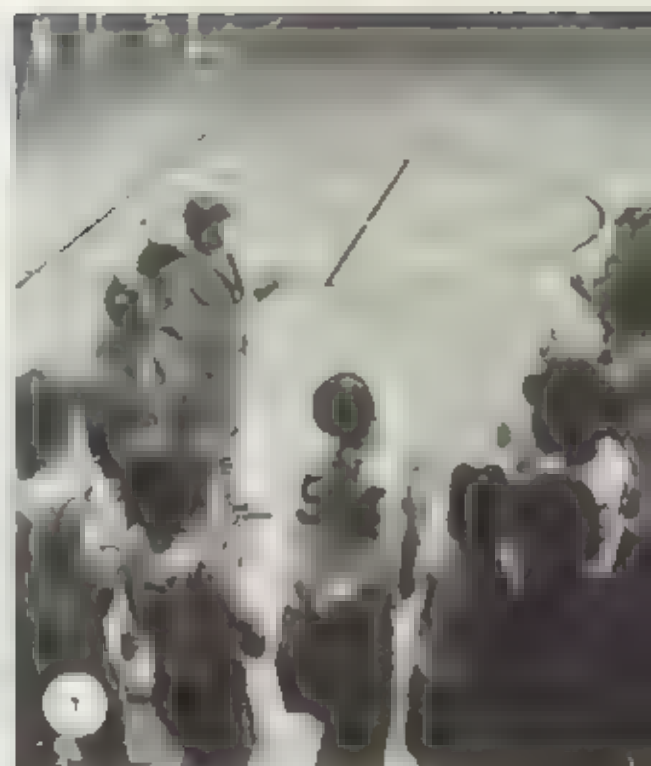

The nearly 20-member squad of freshmen and sophomores all saw plenty of action, winning many of their games by large margins.

Adding to the basketball program were the cheerleaders. Taking time from their boys cheering schedule, the freshman, sophomore and varsity cheerleaders took turns cheering for all home girl's games and many away games.

Jumping high is a trait of a good volleyball team.

The volleyball team started practice far ahead of the season this year. Coach Eldon Partridge worked on the team's weaknesses until they had improved greatly in aggressiveness and take charge attitude. This paid off as the girls came out of the season with an overall 10-4 record.

They placed third in the Quincy Tournament but lost a disappointing first-round match to Rock Island in the district tournament.

There were four returning lettermen this year. Coach Partridge expects five more next year.

With growing appeal, the future looks bright for the girl's volleyball team.

## GIRLS' TRACK

# "IT IS A LOT OF HARD WORK BUT THERE'S SOME GOOD REWARDS

cheryl pittman, Junior

### Girls' Track

The girls' track team had a great deal to be excited about this year.

There were a lot of meets set up, a lot of new freshmen talent coming in, and a lot of left-over enthusiasm from last year's state championship.

Coach Carlos Ferreri was confident from the start. "Track is a lonely sport. It's not a spectator sport, and it's often the dedication, not the glory, that keeps the girls going."

The girls track team had the dedication to keep them going.

### Girls' Softball

"We're looking forward to a very good season and a lot of hard work," said Karen Winger, one of the three returning seniors on UT's girls softball team.

Sporting a young team of mostly sophomores, the girls are facing an expanded softball schedule this year. There is a double-header at Quincy in addition to a newly found Western Big Five Conference.

With the season beginning in April, softball Coach Ramirez began tryouts in March. The returning lettermen began practicing before the new recruits tried out. The result was nearly 25 people on each team practicing daily.

"Coach Ramirez helps the team a lot. He takes part in the practices by running with us and that helps us get in shape," said Karen.

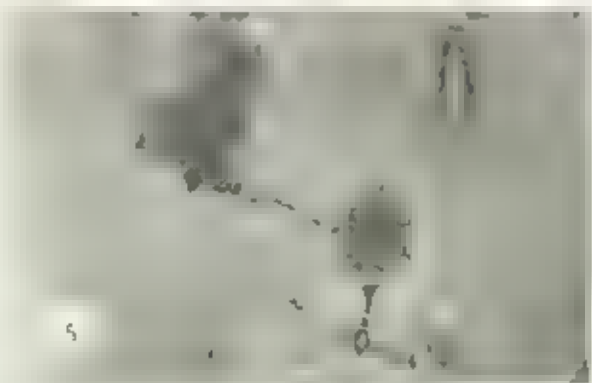

Girls softball is on the rise at UT. "Many people don't realize you can receive a varsity or J.V. letter in softball because it takes place in the summer."

## FOOTBALL continued

The 1977 Panther football team won only one game all season, but they brought honor to UT by playing with pride and courage.

You might say that the football players were winners in everything except the win-loss column. Misfortune, bad breaks and a series of major injuries severely hurt the team's chance for victory.

Oscar Snyder, Dusty Coder, Toby Liedtke, Jay Roberts, Kurt Simmons and Brent Mosley were all injured and lost for the season.

All the games were close and tough battles down to the last few seconds of play, but still the Panthers came through with only one winning battle (the season opener against Quincy).

At the annual awards banquet, Mike Jacobs received the award for the Most Valuable Player, Alex Terronez was voted Most Improved, Ka Togami and Mike Jacobs were Team Captains, and Greg Kinman earned the Scholastic Award.

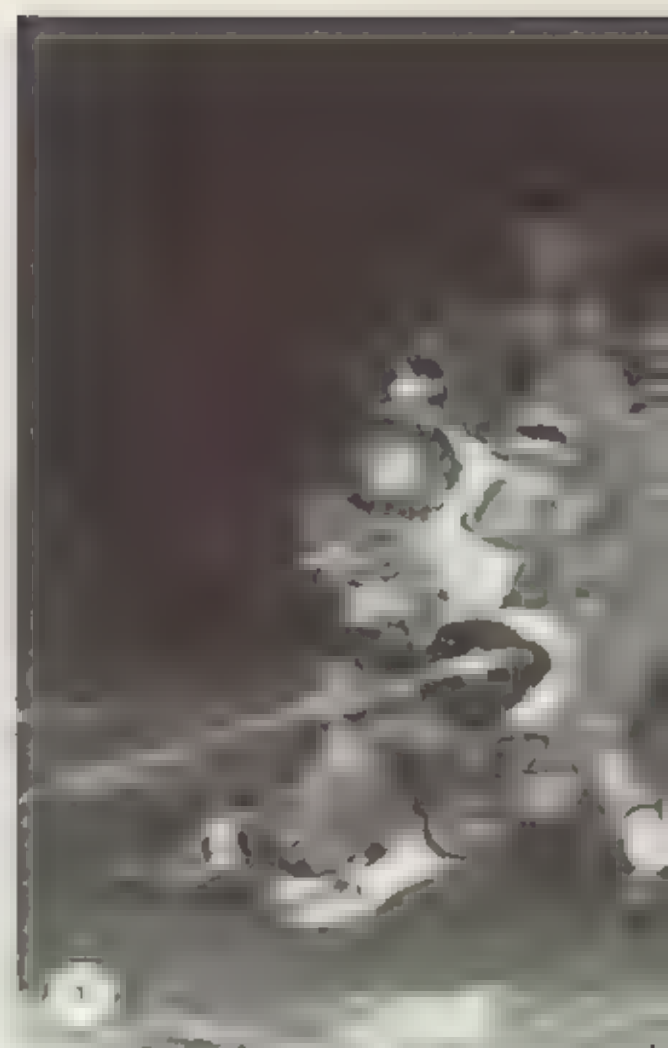

### Sophomore Football

At the beginning of the season, well-placed passes from Darren (Bobo) Butler to Eric Walker and Kurt Wiegall provided much of the sophomore's offensive power. As the season progressed the offense was propelled by the power running of Brock Coverdill and the breakaway running of Andre Curington.

Much of the success of the running attack was due to the improvement of the offensive line made up of Scott Etzel, Eric Esperne, Rob DeWalsche, Jay Bjork, Randy Theuninck, Chris Columbia, and Wade Burkland.

At the annual awards banquet, Darren Butler and Brock Coverdill were named Captains. Most Valuable Back was Andre Curington; Mark Shields was Most Improved Back. Most Valuable Lineman went to Randy Theuninck, and Chris Columbia was named Most Improved Lineman. Best Tacklers were Cory Lenger and Eric Walker and Captain of the Specialty Teams was Jorge Tapia.

## CROSS-COUNTRY

# "TEAM DEPTH WAS THE KEY TO THIS YEAR'S SUCCESS"

Mark Pirmann, Junior

Do you enjoy running 60 to 80 miles a week? Do you enjoy weightlifting? Most of all, do you enjoy being in extremely good health? If you answered "yes" to any of the above questions cross-country could be just the sport for you.

According to Mr. Gary Phillips, coach of the Quad-City Conference Champs, cross-country running is very enjoyable. "You are surrounded by beautiful scenery. And even after the toughest race, you recover fully and feel good within five minutes."

The Quad-City championship was claimed by the UTHS cross-country team this year for the first time in 15 years. Coach Phillips felt that one reason for this was that the team had extreme depth. UT's third, fourth, and fifth position runners were as strong as or stronger than the competition's runners. The team's record of 10 wins and 1 loss was the best in UTHS history for cross-country.

At the end of the cross-country season, UT ranked 25th among all teams in the state.

Talent will not be lacking in the next year's team, says coach Phillips. There will be 29 returning runners in the fall. They will be ready to win it all.

LEONARD SCHWIGEN

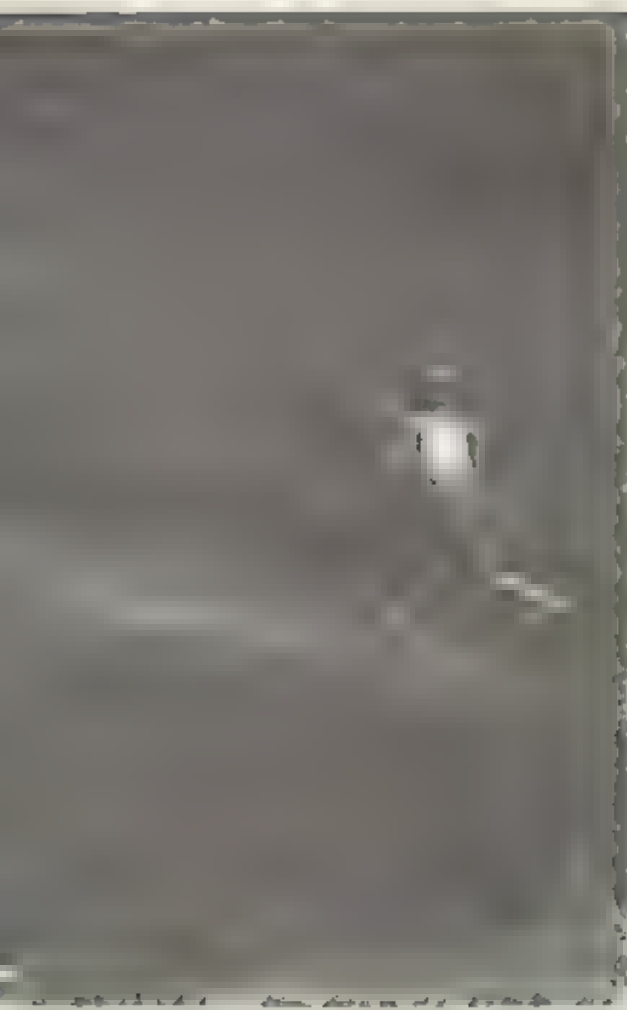

1. Mark Pirmann normally runs with his wrist muscles too tight and that affects his arm action. The towel causes him to hold his hand differently, relaxes the wrist, and results in a more natural arm swing. Several other runners carry sticks or a small baton. 2. Behind all of the others, the lonely runner keeps pushing on. 3. During the homecoming assembly, the Quad City Metro Champs were honored. 4. Bruce Bell jumps the gun.

# “THE TEAMWORK INVOLVED WAS REWARDING AND FUN”

Hayden Parks, Senior

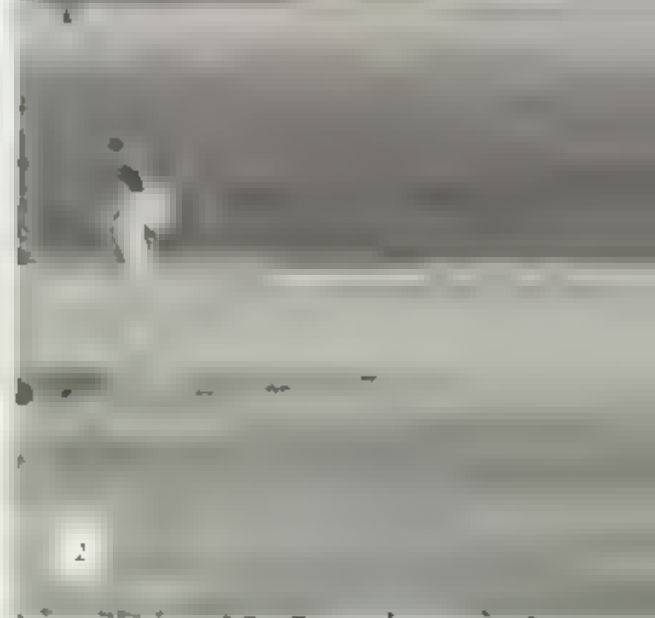

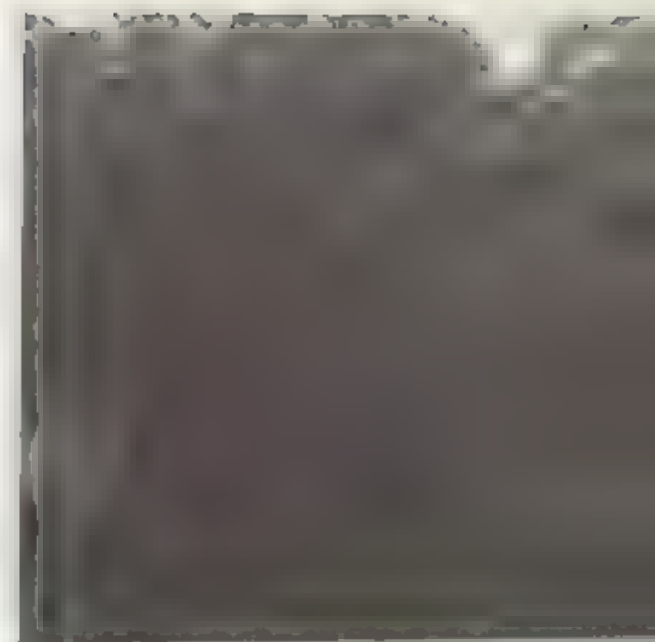

**G**olf ended in the fall this year . . . not to return until next fall. The spring season was cut from the schedule, much to the despair of UT golfers

The team still worked hard and won a fourth place finish in the Western Big Six competition. Much credit goes to coach Roger Damhorst who kept his team in shape. They practiced four or five days a week, playing nine holes a day, to sharpen their competitiveness.

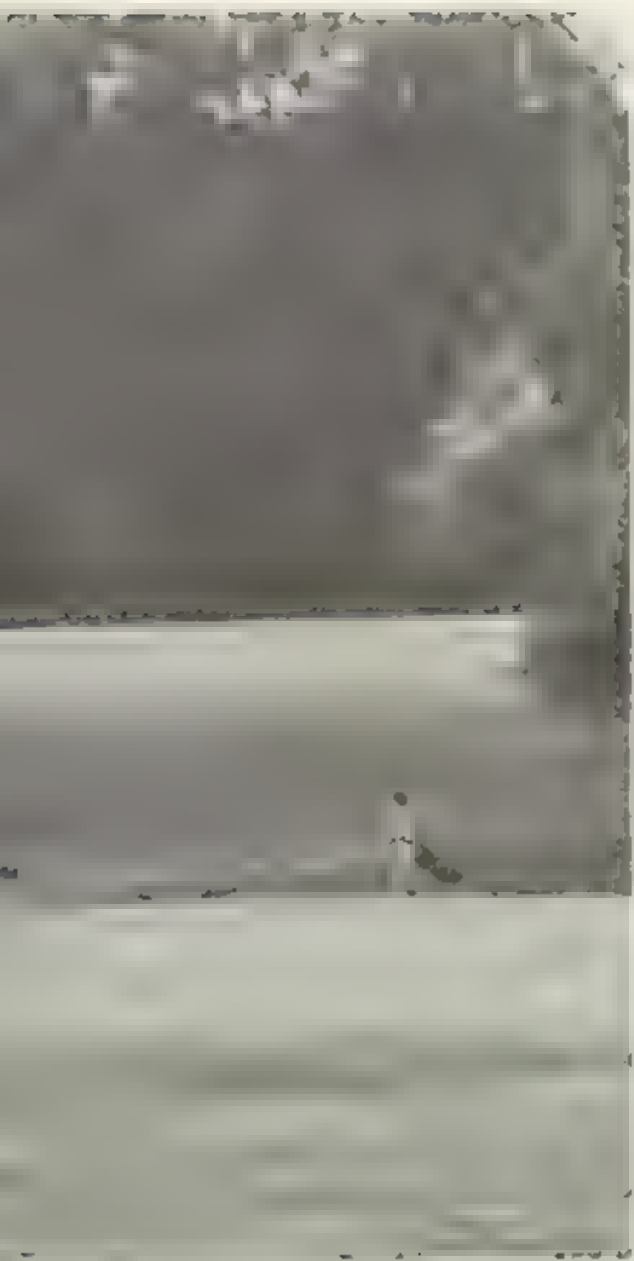

The season is composed of seven accumulative rounds played at six different courses around the Quad-Cities.

Minus a spring season and four of this year's five top players, next year's team will be a bit inexperienced. John Schaubroeck, who held the number one position, and Scott Klouser, who was number six on the team, will return to keep the momentum going.

1. Mark Mitchell studies to make this a sure putt. 2. Moving swiftly, they're off to the next hole. 3. Varsity golfers are Coach Roger Damhorst, Hayden Parks, Paul Ivanowski, Dean Veskauf, John Schaubroeck, and Mark Mitchell. 4. Dean Veskauf gives a hard drive to the green.

## "OVERALL THE SEASON WAS VERY SUCCESSFUL"

bryan garner, Senior

Coach Cliff Talley knew this would be a good year. With only four seniors gone from last year's team, hopes were high. The team finished with a 17-6 season's record.

As in any other season, there were some highs and some lows. Brian Officer, last year's top scorer, was lost early to a knee injury. But the team bounced back and won their own Thanksgiving Tournament.

With a share of the Metro title, the Panthers just missed a shot at the Western Big Six title with a tough loss to Quincy.

Near the end of the season the team earned honorable mention in the state rankings. Coach Talley said, "This special recognition made the team push even harder."

But their door to the state competition was closed when they were defeated in the regionals by Rock Island.

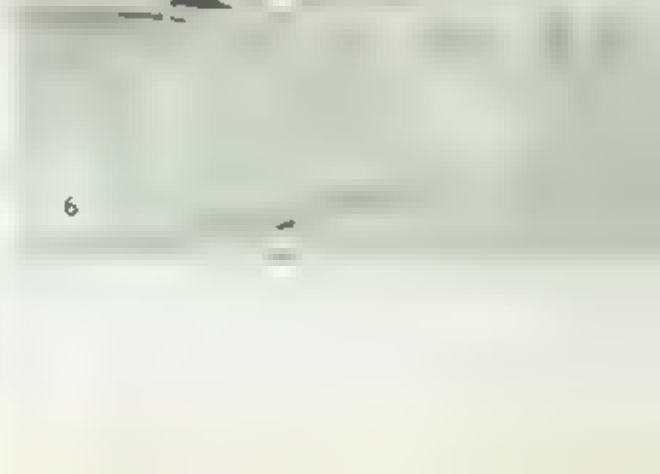

The sophomores won it all in their conference. They were 12-0 in the Quad-City Metro and 9-1 in the Western Big Six.

They won three games in their sophomore invitational: La Salle Peru, Gatesburg, and Pekin.

## WRESTLING

# "ANOTHER GOOD YEAR FOR THE ONE-ON-ONE SPORT"

Kai Togami, Senior

Three wrestlers qualified for State this year, compared to last year's one. And the Quincy Invitational championship was won again for the seventh time in 10 yrs. Thus, it was another successful year for the UT grapplers.

Practicing everyday for two hours has made the wrestling team almost like a family. "We get very close," said Coach Bert Hanlin. "We help each other."

The team was very proud when Kai Togami (119 lbs.), Dan Kinkead (126 lbs.) and Joe Collins (132 lbs.) qualified for State. Each one placed in his weight class. Kai and Joe each placed 7th and Dan placed 8th.

One freshman and two sophomores were chosen for this year's varsity wrestling team. The two sophomores were Brock Coverdill and Poncho (Jerald) Johnson. The freshman, Keith Pier-sall (105 lbs) placed 4th in the district. "Very seldom do we have two sophomores on the team," said Coach Hanlin. "Not to mention one freshman."

## BOYS' TENNIS

# "TENNIS REQUIRES SKILL, AGILITY, AND BRAINS."

Mike Woodruff, Senior

Losing only three players from the 1977 squad and returning five varsity lettermen, three junior varsity letterman, and a promising freshman, the 1978 boys' varsity tennis team expected to improve upon last spring's 7-10 record.

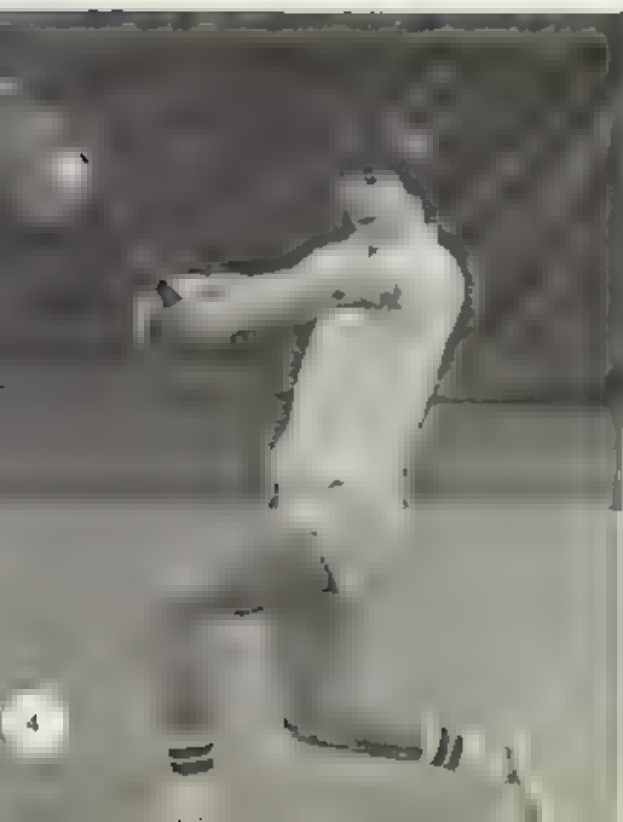

Graduating from last year's team were Randy Heizer, Ed Debowski, and Bob Housholder. Heizer and Debowski played number one and two in singles and number one doubles, qualified for state in doubles, and helped UT tie for 33rd in the state.

This year's success rested on the shoulders of lettermen Scott Reynolds and JV lettermen Mike Woodruff, both seniors; letterman Mike Haskins; Bill Hughes, John McGehee, Dave Moore, and JV letterman John Odendahl, all juniors; sophomore JV letterman Steve Gibbon, and freshman Brian Dahstrom.

## BOYS' TRACK

# "THE TIME TO RUN HARD IS NOW AND NOT LATER"

Randy Stotmeister, Senior

What type of person is a track man? First he may be a very devoted individual. He must be self motivated and eager to put in several hours of training with little recognition. Coach Jim Wesselmann commented, "A track man has a certain goal, and it is the achievement of this goal that is the important thing."

Boys' spring track season begins with two months of indoor track, which is basically a pre-training period. The boys work out several times a week with a variety of exercises including stretches, jogging, and some weight training.

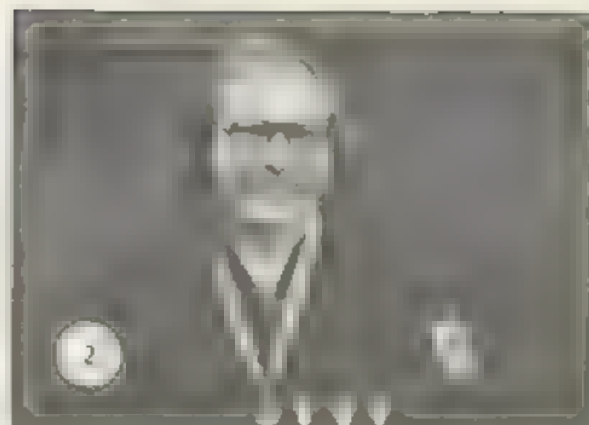

When asked how he felt about the season, Coach Wesselmann replied, "I expect to see some very good performances by individuals. I feel we will do especially well in big meets."

## BOYS' BASEBALL

# "SIX RETURNING LETTERMEN WILL HELP US WITH THE REGIONAL"

Craig Emery, Senior

### boys' baseball

The varsity baseball roster was in large part made up of many juniors and seniors who had no previous varsity experience. This meant extra hard work during the playing season. But, by tournament time, the team was highly competitive and had a chance of advancing a good distance.

The toughest regular season opponents were Peoria Central, Alleman, Rockford Boylan, and (as always) Davenport West and Davenport Central.

### boys' intramurals

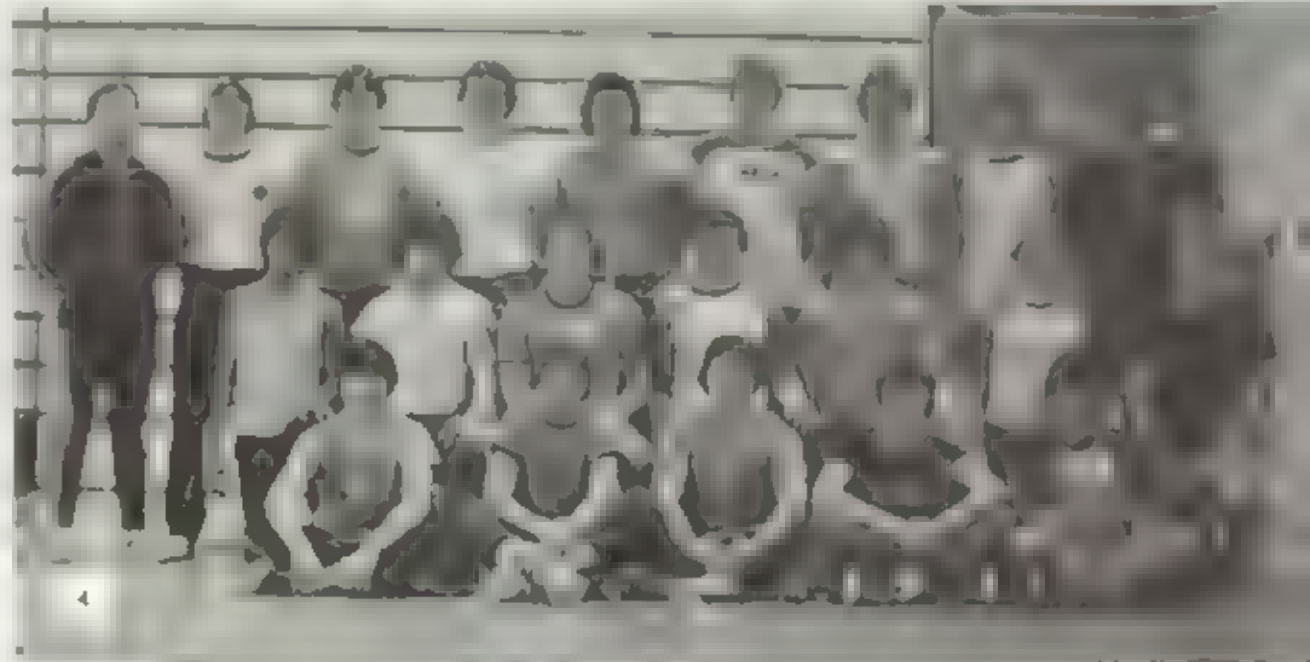

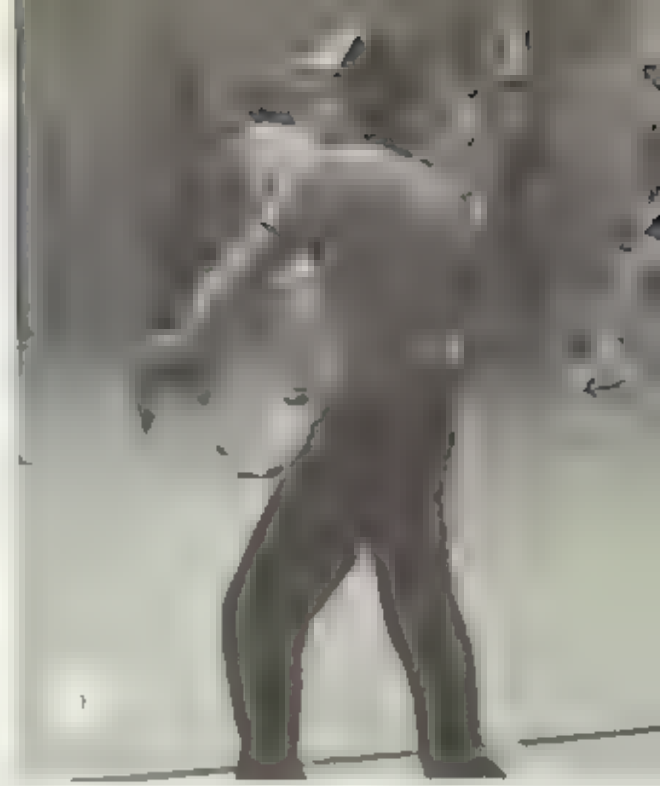

"Sink it! Sink it! Swish! Swish!" These were the words of the Boys' Intramural cheerleaders, cheering on juniors and seniors during their intramural basketball game.

For six weeks, these guys practiced. Juniors practiced on Tuesdays and Thursdays and seniors on Monday and Wednesday. They were under the supervision of Mr. Dick Lee.

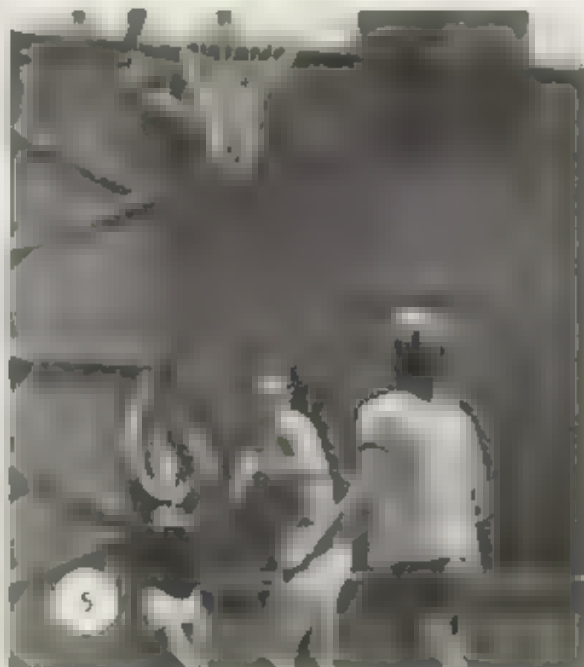

The day of finals was the big day. The seniors defeated the juniors 118-104. Coach for the juniors was Jim Robbins and the senior coach was Jay Goebel.

## RABBIT? YOU SAY YOU SEE A RABBIT?

The house lights dimmed, a hush fell over the audience, the curtain opened, and the fall play "Harvey" began.

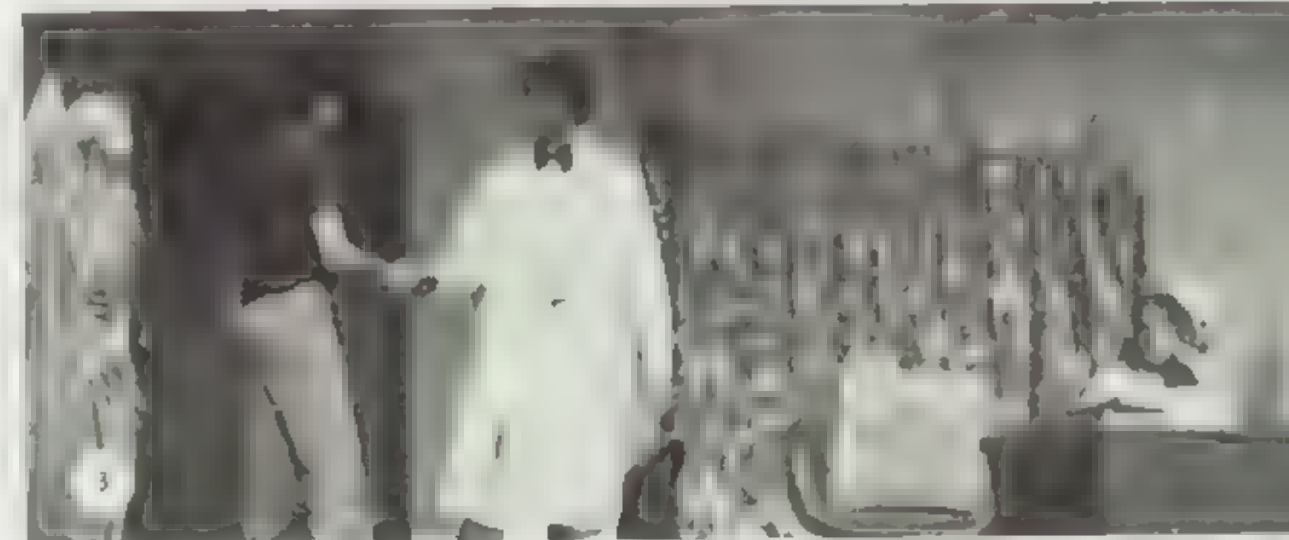

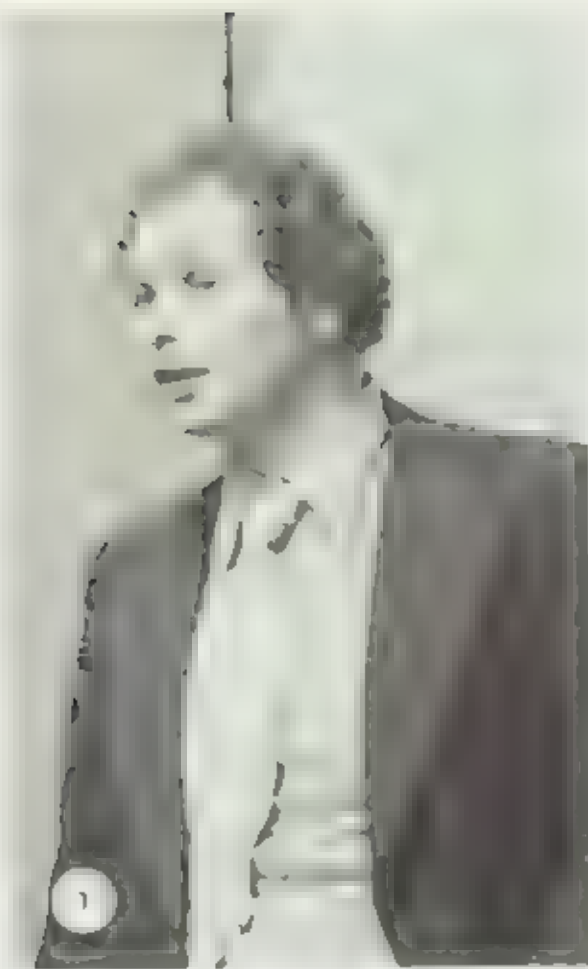

But little did anyone know that there was a lot more to the play than what the audience saw! Behind-the-scenes crews took care of the hustle and bustle of lighting, make-up, props, sound, and set construction.

Minutes before the opening curtain went up, the girls in the play received flowers and Mr. Schmidt gave the cast a "pep talk" and encouraged them to do well.

Encouragement may not have been all that was needed as the mad rush to change the scenery had to be done within sixty seconds. But, because all the scenery was joined together, the average time for change was fifty seconds.

"Harvey", was considered a big success, thanks to the director, Mr. Mike Schmidt; assistant director, Amy Ball; the cast, crew, and the six-foot invisible rabbit.

1. A director's job is to direct, but Mr. Schmidt always tries to do just a little more than that. 2. Nurse Kelly dismisses the orderly. 3. Orderly Duane Wilson gives farewell to Doctor Sanderson. 4. "And sometimes, Doctor, even I can see Harvey!" 5. Friends of Harvey help with seating arrangements.

1. Nurse Kelly tries to grasp the concept of Harvey. 2. Taxi driver E.J. Lofgren induces a change of heart in Veta Louise. 3. A pleasant Elwood tries to explain Harvey. 4. Dr. and Mrs. Chumley discuss a dinner party. 5. Andy Finkbeiner's talent is shown in his rendition of Elwood and Harvey. 6. Cast members were Jeff Longbons-E.J. # **"FIDDLER" PACKS 'EM IN, BRINGS THEM TO THEIR FEET**

More than two months of hard work and frustration came to an end on Thursday, February 2. That is when the final curtain came down on the musical, "Fiddler on the Roof".

Fiddler was first presented on February 1 to a near-capacity house. The cast received a standing ovation for a well-done production. On closing night the show was presented to a standing-room only audience and once again the crowd rose to its feet even before the curtain closed.

Things didn't always run as smoothly as they did during the performances. In the final week of rehearsal everybody was so excited and eager to do their best that sometimes props were left on stage, the set was bumped into, and inevitably some lines were forgotten.

Not only was there rehearsal every night, but on weekends the set was built and repaired. The set was designed by Mr. Michael Schmidt, director, and Andy Finkbeiner, junior. The set was built almost entirely by students under the direction of Dale Morrow and Martin Dawson, both seniors.

Joan Nicholson, assistant director, pulled all the loose strings together and made the whole operation run smoothly.

So much effort by so many people went into this successful production. Principal Stan Sosnouski said on the morning after the play, "This is the best production at UT in 15 years. It was presented by a great group of students."

This was the first show at UT in many years to be a complete sell out.

# COFFEE, TEA OR PANTHER PLAYERS?

Three thousand years ago, the Greek playwright Euripides wrote a play entitled Trojan Women. This was to be performed in a contest before the rulers of ancient Greece

The play was shown once again in contest, this time by UT students under the direction of Mr Michael Schmidt

The cast was picked by Mr Schmidt one month before the play was to be performed at the district contest

"Since I have no try-outs for the one-act, everytime someone tries out for a show they are also trying out for the one-act," said Mr Schmidt

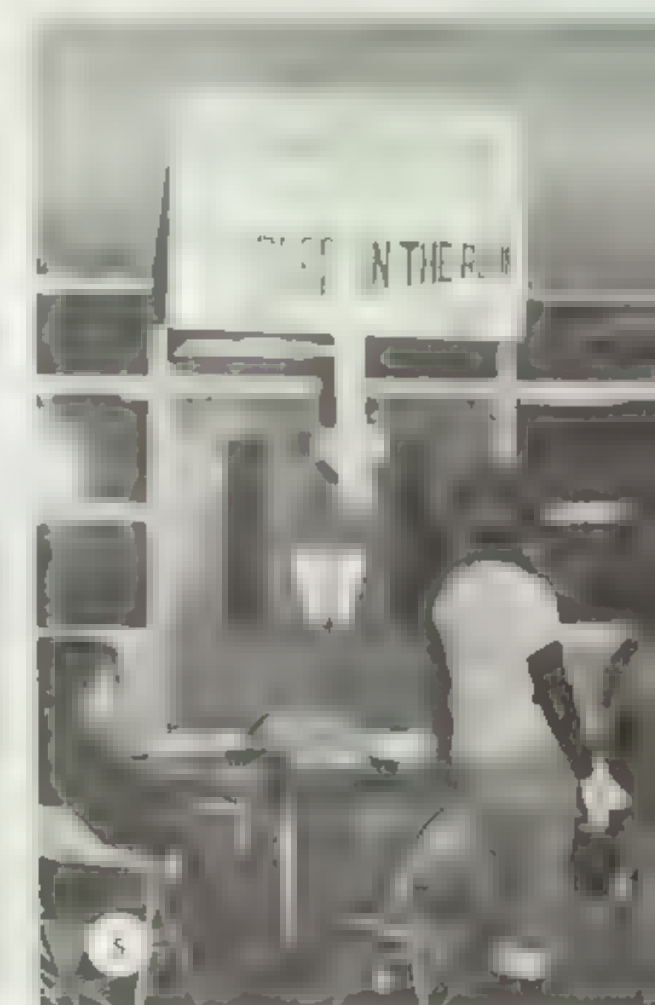

In January, a chili supper was held by Panther Players. Since the one-act is never presented before a paying audience, something had to be done to raise money for it. Mr Schmidt said "The chili-supper was a success in the sense that it made money and it got over one hundred people involved. This included some parents as well as Panther Player members."

Mr Schmidt feels that a large cast and many special effects is the way to capture a first place trophy. A fog machine was purchased for the show. (UT is fortunate to be one of the few schools to own such a machine). He also has many other special effects planned. He feels that it will take a stage crew of about sixty to put the set together and take it down in the allotted time

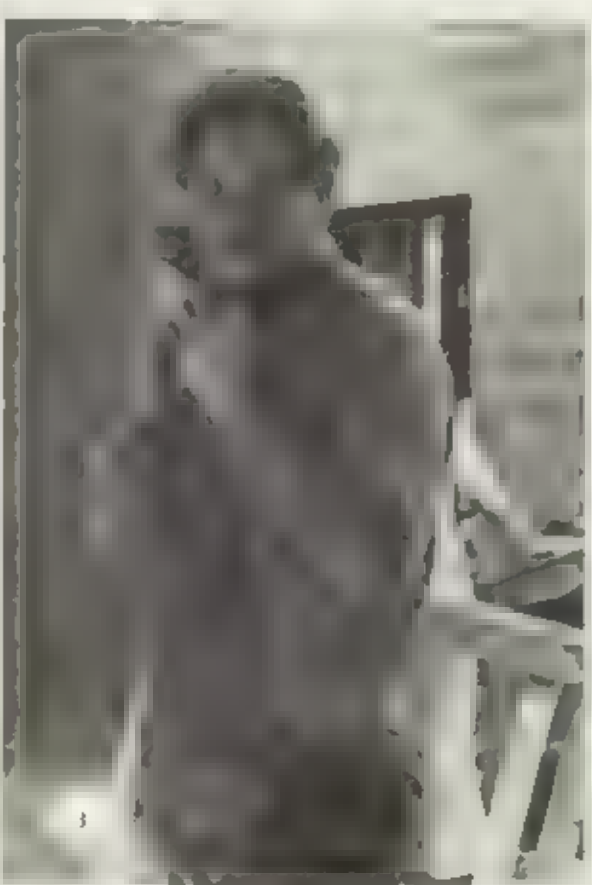

Last year's show, *The Menaechmi*, won fourth place in the state

LEONARD SCHWIGEN

1. A big smile always helps pull in the customers-or does it? 2. How could you resist buying a ticket for the chili supper with people like this handling your money? 3. What goes good with chili? Coffee, tea, or Panther Players? 4. The one-act play was presented to English classes before it placed in Competition. 5. Panther Players sold tickets to the upcoming presentation of "Fiddler On The Roof" during the chili supper

1. Mike VanBelle and Kevin Greer discuss their serving methods as the Chili supper begins. They hope to earn enough money to finance the 1-act play. 2. Mr. Michael Schmidt shows the Panther Players how to make props out of plywood and paint. 3. Mr. Schmidt said that it will take a stage crew of about sixty to put the set together and take it down in the allotted time. 4. Dirk Carlson and Kris Young are again chosen to be in the 1-act play. They also performed in last year's 1-act "The Menaechmi." 5. Presenting a 1-act play requires many hours of demanding rehearsals. 6. ## AWARD-WINNING BAND PLAYS ON

Mr. Malle Williams has been director of bands for 26 years. He directs Marching Band, Concert Band, Freshman Band, North Campus Band, Freshman Prep Band and Jazz Lab.

Marching Band performs during half time at football games and is made up of sophomores, juniors, and seniors. This band turns into Concert Band after the football season ends.

Pep Band performs during the basketball games, but is not a class.

The Freshman North Campus Band is made up of advanced freshman students. Freshman Prep Band is comprised of beginning freshman students.

Jazz Lab is a select group of juniors and seniors who perform pop music at area functions throughout the year.

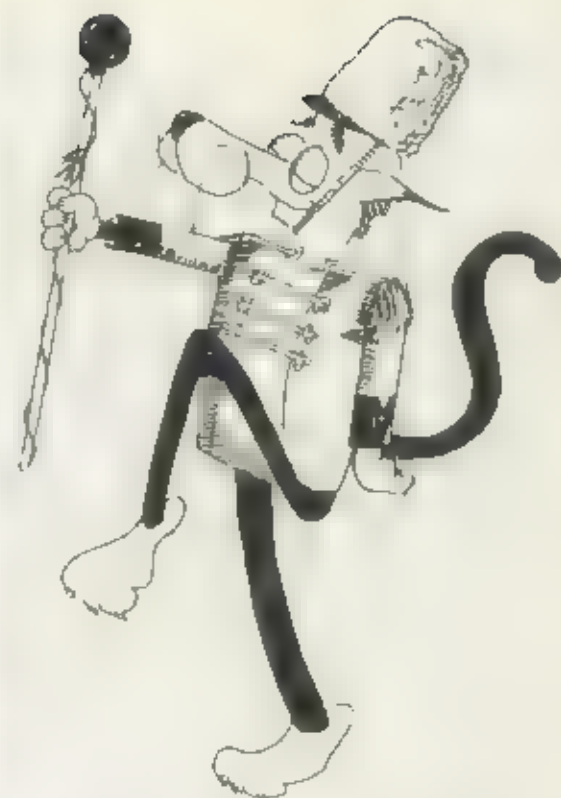

The overall size of band is increasing. About 25 seniors will be graduating this year, but there are twice as many freshmen coming in. The bands played at concerts for grade schools in addition to entertaining fans at football and basketball games.

Mr. Williams is a busy man, teaching five different band classes in addition to guitar and theory and harmony classes. "We try to help anyone who wants to do anything in music. Kids need help in music and if it takes extra hours after classes to do it, I'm willing to help," said Mr. Williams.

was received from Prof. Al Wright, band director at Purdue University. Invited students were invited from throughout the country. The concert will cover seven countries: England, France, Germany, Austria, Italy, Poland and Switzerland. The group will assemble in New York in mid July and will give concerts at Lincoln Center and Rockefeller Center before departing for Europe.

Both Scott and Steve have been active in UTHS musical groups and both were selected for the Quad City high school honor band. Scott is president

of the band. Ray Smith and his wife Helen, retired and moved from East Moline to Cape Coral, Fla., two years ago. He had fair luck with a "modest" backyard garden each year.

Since moving to Florida, however, Ray has become such an extraordinary gardener that the Cape Coral newspaper, The Breeze, recently did a full page feature article on him.

During the last few weeks, Ray has been pulling foot long carrots from his plot.

I'd love to see the look on their faces if they could open up the papers in the wintertime and see Ray Smith working in his garden. Ray is quoted as saying in a newspaper article:

G. SN WHITE, of Davenport, 29-year employee of International Harvester's East Moline plant recently was named "barbershopper of the year" by the Chordbusters Barbers Chorus.

White has been a member of Quad City barbershop group for years and the award he received is his "unselfish devotion" to organization.

White's wife, Evelyn, is a member of the Chordbusters Barbers Chorus. She is also a member of the Chordbusters Barbers Chorus.

# CHOIR NURTURES ABILITY, ENERGY, AND DISCIPLINE

## Chamber Choir

If you're willing to raise your voice in the morning, Chamber Choir is for you.

Chamber Choir has about three concerts a year. It's a good time to start building up the energy, self-discipline and strength for concert choir, the next step for people who are serious about singing.

What's it like to work with people in chamber choir? According to Mr. Donald Dyer, director of choirs, "It's a tremendous joy to work with students growing musically and vocally, and to watch the growth in their love for music."

## Concert Choir

Concert Choir . . . Mr. Dyer's "ultra-select" group. These are the people who join together to sing at concerts on television, and radio.

Concert choir toured the area, showing young people what choir is like. They also sang at LeClaire Hotel, the East Moline and Moline Rotaries, and in assembly at North Campus. As for the media, concert choir was on three radio stations and on WQAD television station.

But it wasn't all fun and concerts this year. Anyone who had friends in Concert Choir probably heard a lot of grumbling about sight-reading. Sight-reading is the ability to pick up a piece of music, be given a pitch, and sing the piece through, perfectly pitched and rhythmically.

## English Hand Bell Choir

Just what is handbell choir, anyway? Obviously, it's a choir that plays handbells. If anyone can read notes, and is willing to practice and work hard, he can sign up for bell choir. What he does is line up with his not-so-small English handbells, and when a note assigned to him comes up, he rings the corresponding bell. . . Simple? Well,

there's a saying that simplicity is beautiful, and that's definitely the kind of sound you get beautiful.

This year hand bell choir played for many women's clubs and at Augustana College Section.

## 5th and 7th Hour Choirs

Singing's easy. All you do is say the words in time to the music, or just take it. There's always someone else who's loud enough to cover up. It's an easy grade to get. Right? Wrong! When you get into Mr. Dyer's 5th and 7th hour classes, you work hard . . . and everybody sings.

Guys really started to get involved this year. Perhaps it's because there's more time without the split schedule at North. From among every one in the singing classes, 70 were freshman guys.

"We're trying to rebuild the choirs, starting with the freshmen. We hope to get eight singing choirs soon," said Mr. Dyer.

"Singing is not for sissies," he said. And he repeated this over and over to his choir members throughout the year.

# EVENT! New horizons

1 The Kodak display was brought to UT this year by Mrs. Kramer for students to see prize-winning photographs. 2 No, it's not the three banditos. It's a singing group performing for the foreign language classes. 3 "Oh!" roared the crowd in response to the popular Flamenco Dancers.

# SEX EQUALITY INVADES THE WEIGHT ROOM AS GYM CLASSES GO CO-ED

Strange things are happening in the P.E. department this year. You say you walked by the weight room and saw girls lifting weights, but you didn't believe it? That's nothing! Walk into the wrestling room and you can see a real exciting wrestling match — girls against the guys!

The UT physical education classes went all co-ed this year. Department Chairman Al Zimmerman said it has developed into one of the best programs around, and that most students approve of it.

There had to be some rule modifications for the contact sports. Guys cannot hand the flag football off to another guy, and guys cannot block a girl as hard as they can other guys. However, it is sometimes hard to get girls interested in these sports despite the rule modifications. (Likewise it is hard getting a guy interested in a class such as dance, which is popular with girls.)

Some students complained about the inequality in grading. "The girls do far less sit-ups and four-count burpies for the same grade as the guys," said Jim Jesuit, junior.

The men teachers had no trouble adjusting to the change, but the women had a few trying experiences. One teacher commented that she would have to buy a megaphone as she was overwhelmed at how loud male voices can get.

Where will all this "equality of the sexes" lead? Not so far as into the locker rooms — at least not for a long, long while.

Cancer takes Hubert Humphrey

Hubert H. Humphrey, 68, died of cancer today, the result of a long battle with the disease. He was a member of the Senate and a former vice president of the United States. His death was a great loss to the nation. He was born in Wisconsin and served in the military during World War II. He was a member of the Democratic Party and was known for his work in civil rights and social justice. His death was announced by his family and the White House. He was buried in Washington, D.C. His legacy lives on through his work and the values he stood for.

# THE DISCO SENSATION . . . CHEVY CHASE . . . THE UNKNOWN COMIC . . . FONZIE IN MOVIES . . . SATURDAY NIGHT FEVER . . . ON THE ROAD ALONE

The pool, discipline codes, a new superintendent . . . our theme "Different Things" symbolizes this year in a special way

We would like to thank Mrs. Mary Conger for all the hours of understanding and help she gave

Thanks also go to Frank Pompa (who drew Pete on our cover), Howard Dusek, American Yearbook Company, Dee Cordell, the business teachers at South Campus, Adolph Studio, and to everyone else who was involved in the hectic process of putting together this year's Skyline

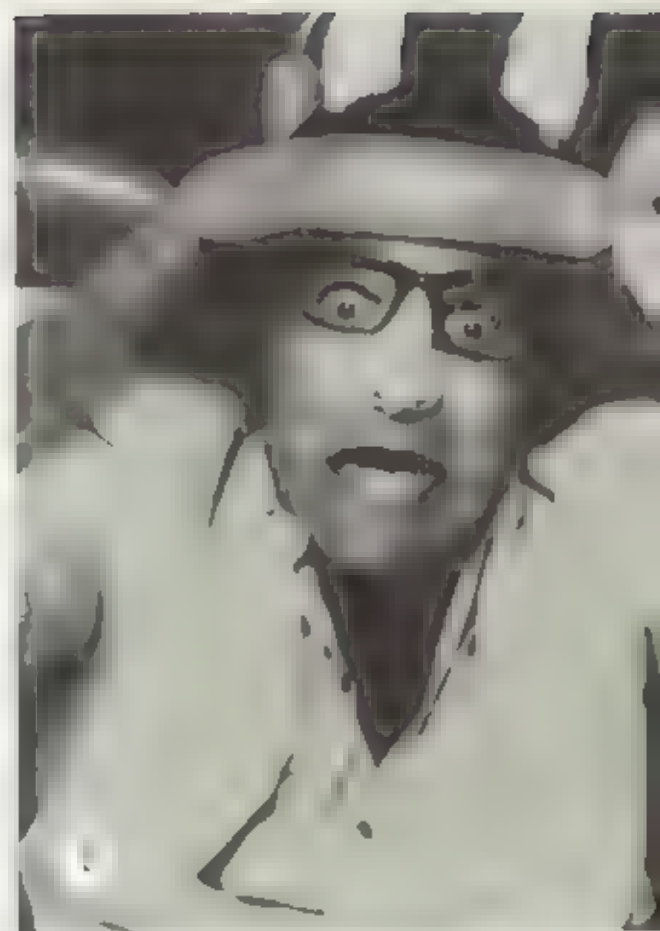

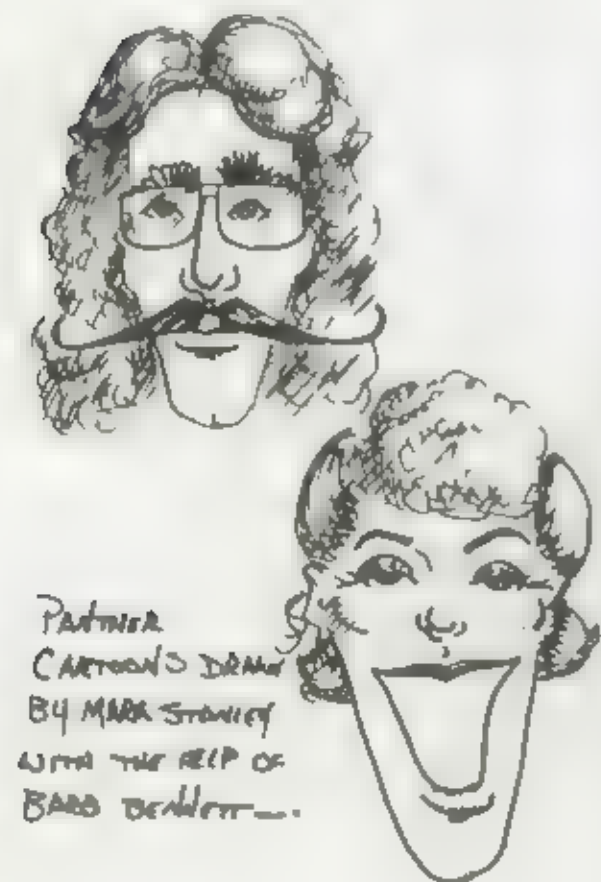

In seven months we "ate, slept, and drank yearbook." People on the outside can't know the work involved in putting together a 256-page book for spring delivery

Noise, unkept appointments, pictures that had to be retaken (and retaken again), slip-ups, goofs, inconveniences . . . for all of these we are sorry

This book is dedicated to the class of '78. We have tried to capture this year in stories and pictures so that you can always remember your senior year

1. Ours became a favorite disco spot for Sunday evening high school dancers. 2. A "new kind of insanity" is sweeping the country via Steve Martin. He is just "a crazy kind of guy". 3. "Saturday Night Live" was a sensational TV show that kept many in fits of laughter 4. "Laverne and Shirley" topped the TV ratings with the 50's kind of humor 5. Bing Crosby's death left Bob Hope on the road alone.

1 The number of cheerleading squads increased this year so that more girls were given a chance to cheer. 2 The disco influence was felt in popular songs and movies.

## SWIMMING CLASSES IN GYM ... WET HEADS DIVING ... SWIM TEAM ... WATER SHOWS MAYBE SOMEDAY A STATE CHAMPIONSHIP

We've watched it change from a grassy hockey field to a hole in the ground to a mass of construction. Eventually 25 years of dreaming will be ended when the new swimming pool becomes a reality.

This year the federal government granted UT 1.4 million dollars toward the construction of the pool. But this figure could not touch the expenses, so additional money needed to be raised.

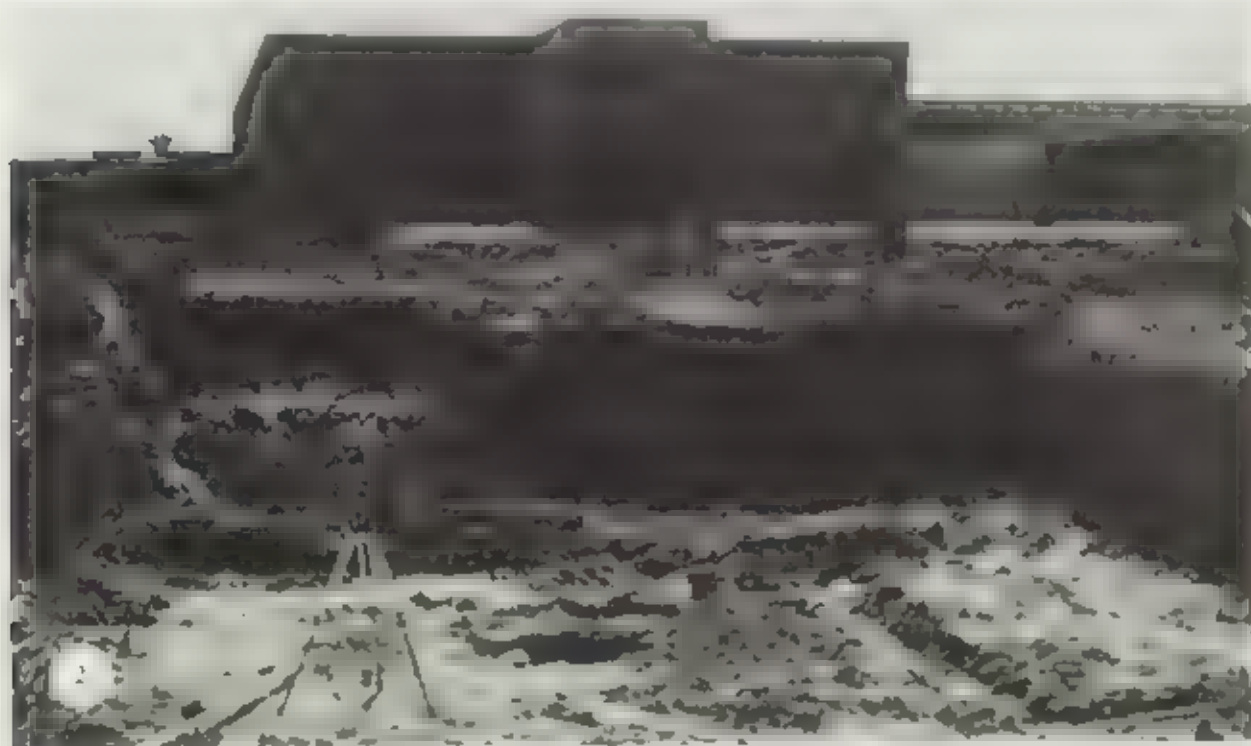

Technically there will be two pools, according to Mr. Jerry Miller of Bracke-Miller-Hayes architect company. The 45X75 foot pool will be used

for swimming. The other pool, which is 30X40 feet, will be used for a diving pool. This second pool will be about 13 feet deep.

Mr. Miller said that this pool will be different from others in the area because it will be better insulated, which will save money and energy. There will also be special provisions made for the handicapped.

Who hasn't dreamed of a quick dip in the new UT pool? By early fall our dreams will become a reality.

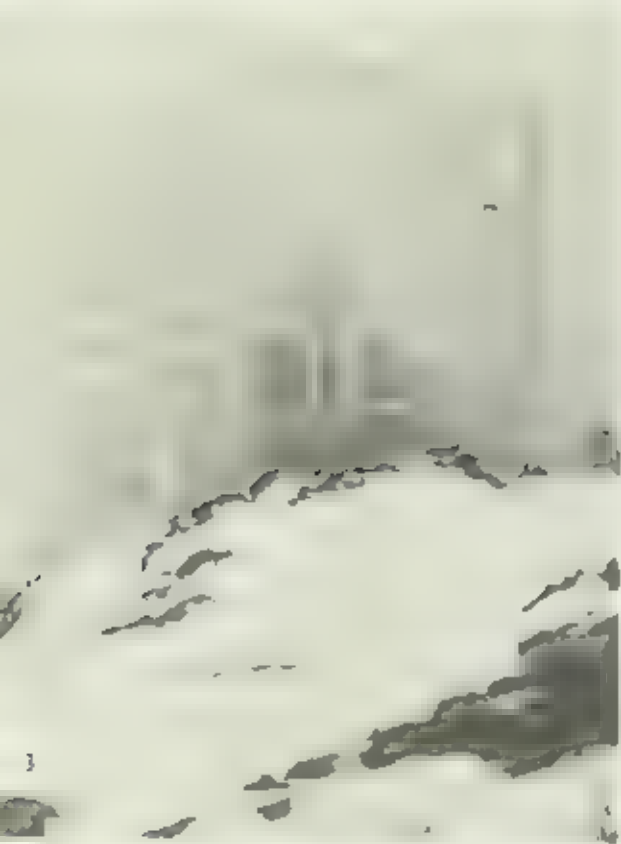

JAN WILLIAMS

1. Synchronized swimming? Swim teams? Maybe a state championship? It will all be possible now. 2. The surveyors study the land which holds the promise of a long-desired swimming program for UT. 3. The first bricks have been laid and momentum is beginning to build in the pool construction. 4. One day, even as early as Fall '78 when the pool is completed, these pictures will be hard to believe.

1. Students studying in the library always had something to look at this year, as changes came about everyday on pool construction. 2. These workers are awed by the job still ahead of them. 3. The cold weather didn't halt pool construction for long, as a shelter was built for the workers. 4. The Quad-Cities had snow cover every day from December 19 through March, making pool construction difficult. 5. These bathing beauties and musclemen can't wait for their first dip in the pool
